## Operation K:

*No Place Like Home: Ancient Near Eastern Houses and Households* Laura Battini, Aaron Brody, Sharon R. Steadman, 2022-10-06 This book had its genesis in a series of 6 popular and well attended ASOR conference sessions on Household Archaeology in the Ancient Near East. The 18 chapters are organized in three thematic sections: Architecture as Archive of Social Space; The Active Household and Ritual Space at Home. *Operations Research Proceedings 2016* Andreas Fink, Armin Fügenschuh, Martin Josef Geiger, 2017-07-20 This book includes a selection of refereed papers presented at the Annual International Conference of the German Operations Research Society OR2016, which took place at the Helmut Schmidt University, University of the Bundeswehr Hamburg, Germany, Aug 30-Sept 2 2016. Over 700 practitioners and academics from mathematics, computer science, business economics, and related fields attended the conference. The scientific program included around 475 presentations on the theme Analytical Decision Making, focusing on the process of researching complex decision problems and devising effective solution methods towards better decisions. The book presents papers discussing classical mathematical optimization, statistics, and simulation techniques. Such approaches are complemented by computer science methods and tools for the processing of data and the design and implementation of information systems. The book also examines recent advances in information technology, which allow big data volumes to be treated and enable real-time predictive and prescriptive business analytics to drive decisions and actions. Further, it includes problems modeled and treated under consideration of uncertainty, risk management, behavioral issues, and strategic decision situations. *21st European Symposium on Computer Aided Process Engineering* E. N. Pistikopoulos, Michael C. Georgiadis, Antonis C. Kokossis, 2011-07-21 The European Symposium on Computer Aided Process Engineering (ESCAPE) series presents the latest innovations and achievements of leading professionals from the industrial and academic communities. The ESCAPE series serves as a forum for engineers, scientists, researchers, managers, and students to present and discuss progress being made in the area of computer-aided process engineering. CAPE European industries, large and small, are bringing innovations into our lives, whether in the form of new technologies to address environmental problems, new products to make our homes more comfortable and energy efficient, or new therapies to improve the health and well-being of European citizens. Moreover, the European industry needs to undertake research and technological initiatives in response to humanity's Grand Challenges, described in the declaration of Lund, namely: Global Warming, Tightening Supplies of Energy, Water, and Food, Ageing Societies, Public Health, Pandemics, and Security. Thus, the Technical Theme of ESCAPE 21 will be Process Systems Approaches for Addressing Grand Challenges in Energy, Environment, Health, Bioprocessing, Nanotechnologies. *American Machinist*, 1926 *Advances in Materials, Mechanics and Manufacturing II* Mounir Ben Amar, Anas Bouguecha, Elhem Ghorbel, Aberrahim El Mahi, Fakher Chaari, Mohamed Haddar, 2021-09-20 This book reports on innovative materials research with a special emphasis on methods, modeling, and simulation tools for analyzing material behavior, emerging materials and composites, and
