This exceptionally informative book provides a broad perspective on how technological change can be effectively managed in modern organizations. The text explains the conceptual frameworks supported by new and original case studies for start up companies like Askmen.com the complex challenges of managing international technology based companies like NexPress a joint venture of Kodak and Heidelberg in the digital printing industry and corporate sustainability using innovative new product technologies illustrated by the case of Evinrude's launch of the E tec outboard motor. John E Ettlie's three decades in the field of innovation as an instructor and researcher bring an exceptional perspective to this subject. His text is unique in its discussion of how technology has transformed the service sector. Few books on technology make the distinction between new offerings in manufacturing and the service sector which is emphasized in this text
