Organizational Encounters With Risk:

Organizational Encounters with Risk Bridget Hutter, Michael Power, 2005-12-01 Organizational encounters with risk range from errors and anomalies to outright disasters In a world of increasing interdependence and technological sophistication the problem of understanding and managing such risks has grown ever more complex Organizations and their participants must often reform and reorganise themselves in response to major events and crises dealing with the paradox of managing the potentially unmanageable Organizational responses are influenced by many factors such as the representational capacity of information systems and concerns with legal liability In this collection leading experts on risk management from a variety of disciplines address these complex features of organizational encounters with risk They raise critical questions about how risk can be understood and conceived by organizations and whether it can be managed in any realistic sense at all This book is an important reminder that the organisational management of risk involves much more than the cool application of statistical method

Organizational Encounters with Risk Bridget Hutter, Michael Power, 2005-12-01 Organizational encounters with risk range from errors and anomalies to outright disasters This collection of essays addresses the varied ways in which modern organizations understand process and deal with risk Contributions by leading experts on risk management illustrate the complex organizational and social dimension of risk management reminding the readers that effective handling involves much more than the application of technique

Global Governance and the Role of Non-state Actors Gunnar Folke Schuppert, 2006 This book represents a conference organized by the Social Science Research Centre Berlin WZB the Alfred Herrhausen Society The International Forum of the Deutsche Bank and the Centre for the Analysis of Risk and Regulation CARR at the London School of Economics and Political Science LSE in November 2004 in London Changes in statehood are one of the main indicators of a shift in the focus of governance onto the global level This is manifested most clearly in the emergence and growing importance of actors that are no longer tied to national or state contexts in the traditional way as with national parliaments government ministries or administrative bodies The age of global governance is an age of international actors such as the WTO and of non state actors such as non governmental organizations NGOs and transnational corporations TNCs The aim of the conference was to take a closer look at these non state actors the scope of their activities the way they operate and the extent to which they are perhaps more appropriately classified as governance actors given their function as regulators and standard setters tasks more traditionally associated with the state

Financial Markets and Organizational Technologies Alexandros-Andreas Kyrtsis, 2010-07-16 This book is the outcome of a one day conference held at the premises of the Historical Archives of the National Bank of Greece in Athens on 29 November 2008 Pref Risk, Complexity and ICT Ole Hanseth, Claudio Ciborra, 2007 Explores the challenges regarding risks and risk management related to the growing

complexity of ICT solutions This book draws upon theories of risk society and reflexive modernization and uses various case studies to demonstrate efforts aimed at controlling and managing the complexities of various ICT solutions Organized Uncertainty Michael Power,2007-05-24 Since the mid 1990s risk management has dramatically expanded its reach and significance to become a benchmark of good governance for a wide variety of public and private organizations This book shows that the rise of risk management has much less to do with real dangers and opportunities than with organizational accountability and legitimacy *Annual Report American Bar Foundation,2005* **Environment and Planning** ,2007
