*Early Buddhist Meditation* Keren Arbel, 2017-03-16 This book offers a new interpretation of the relationship between insight practice satipatthana and the attainment of the four jh nas i e right sam dhi a key problem in the study of Buddhist meditation The author challenges the traditional Buddhist understanding of the four jh nas as states of absorption and shows how these states are the actualization and embodiment of insight vipassan It proposes that the four jh nas and what we call vipassan are integral dimensions of a single process that leads to awakening Current literature on the phenomenology of the four jh nas and their relationship with the practice of insight has mostly repeated traditional Therav da interpretations No one to date has offered a comprehensive analysis of the fourfold jh na model independently from traditional interpretations This book offers such an analysis It presents a model which speaks in the Nik yas distinct voice It demonstrates that the distinction between the practice of serenity samatha bh van and the practice of insight vipassan bh van a fundamental distinction in Buddhist meditation theory is not applicable to early Buddhist understanding of the meditative path It seeks to show that the common interpretation of the jh nas as altered states of consciousness absorptions that do not reveal anything about the nature of phenomena is incompatible with the teachings of the P li Nik yas By carefully analyzing the descriptions

of the four jh nas in the early Buddhist texts in P li their contexts associations and meanings within the conceptual framework of early Buddhism the relationship between this central element in the Buddhist path and insight meditation becomes revealed in all its power Early Buddhist Meditation will be of interest to scholars of Buddhist studies Asian philosophies and religions as well as Buddhist practitioners with a serious interest in the process of insight meditation Tibetan Buddhism Without Mystification Herbert V. Rebirth in Early Buddhism and Current Research Bhikkhu Analayo,2018-04-23 Join a rigorous scholar and Buddhist monk on a brisk tour of rebirth from ancient doctrine to contemporary debates German Buddhist monk and university professor Bhikkhu Analayo had not given much attention to the topic of rebirth before some friends asked him to explore the treatment of the issue in early Buddhist texts This succinct volume presents his findings approaching the topic from four directions The first chapter examines the doctrine of rebirth as it is presented in the earliest Buddhist sources and the way it relates to core doctrinal principles The second chapter reviews debates about rebirth throughout Buddhist history and up to modern times noting the role of confirmation bias in evaluation of evidence Chapter 3 reviews the merits of current research on rebirth including near death experience past life regression and children who recall previous lives The chapter concludes with an examination of xenoglossy the ability to speak languages one has not learned previously and chapter 4 examines the particular case of Dhammaruwan a Sri Lankan boy who chants Pali texts that he does not appear to have learned in his present life Rebirth in Early Buddhism and Current Research brings together the many strands of the debate on rebirth in one place making it both comprehensive and compact It is not a polemic but an interrogation of the evidence and it leaves
