movable metal characters Some specimens authentically dated such as the St Christopher of 1423 and certain prints published in the course of the following years prove with undeniable authority the priority of block printing It remains to be seen if these specimens are absolutely the first engraved in Europe whether they illustrate the beginning of the art or only a step in its progress Researches Into the History of Playing Cards Samuel Weller Singer, 2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book
