Short,2014-06-11 This study examines the origins of the Vietnam War itself going back to the nature of French colonial rule in the early 20th century It investigates the original conflict between France as well as the United States and the forces of Vietnamese nationalism and communism It argues that it was probably a mistake for the United States to internationalize the war in 1954 and it discusses the American commitment to the war directed as much against China as against North Vietnam and the ideological hostility to communism

**Vietnam and the United States** Gary R. Hess,1990 If there is an overall theme to this study it relates to the American response to the Vietnamese Communist revolution or more specifically to the August Revolution which in 1945 brought Ho Chi Minh and his movement to prominence and power Throughout the several phases of U S involvement the support of the French war effort the fostering of an independent South Vietnam the years of intense warfare and the postwar hostility the American opposition to the Vietnamese revolution has been unrelenting How a Communist revolution in such a relatively obscure and economically backward country came to be perceived as a challenge to U S national security can be answered in part but enough uncertainty remains that it continues to be an intriguing question and one with long range implications for U S foreign policy Preface **The Origins of the Vietnam War** Anthony
