Stableford, 2005 Science fiction literature, also known as sci-fi and sf, is one of the more recent and popular genres. It has also evolved into a variety of subgenres ranging from hard sf to soft sf and utopias to dystopias, with more than a smattering of horror, detective, war, and feminist titles. Stableford covers all of this and more, taking a close look at what has become a booming industry with specialized writers, publishers, and fan magazines and literature from the United States, United Kingdom, France, Russia, and many other countries.
