Organizing Independence:

Organization outside Organizations Göran Ahrne, Nils Brunsson, 2019-07-18 Describes the organizational aspects of contemporary society explaining how organization occurs not only inside formal organizations but also outside and among them

Rivals and Conspirators Fae Brauer, 2014-07-08 Once the State run Salon in Paris closed an array of independent Salons mushroomed starting with the French Artists Salon and Women's Salon in 1881 followed by the Independent Artists Salon National Salon of Fine Arts and Autumn Salon Offering an unparalleled choice of art identities and alliances together with undreamed of opportunities for sales commissions prizes and art criticism these great Salons guaranteed the centripetal and centrifugal power of Paris as the modern art centre Lured by the prospect of being exhibited annually in Salons the size of Biennales today a huge number and national diversity of artists from the Australian Rupert Bunny to the Spaniards Pablo Picasso and Juan Gris flocked to Paris Yet by no means were these Salons equal in power nor did they work consensually to forge this modern art centre Formed on the basis of their different cultural politics constantly they rivalled one another for State acquisitions and commissions exhibition places and spaces awards and every other means of enhancing their legitimacy By no means were the avant garde salons those that most succeeded Instead as this cultural political history demonstrates the French Artists and National Fine Art Salons were the most successful with the genderist French Artists Salon being the most powerful and official Despite the renown today of Neo Impressionism Art Nouveau Fauvism Cubism and Orphism the most powerful artists in this modern art centre were not Sonia Delaunay mile Gall Paul Signac Henri Matisse or even Picasso but such Academicians as Leon Bonnat William Bouguereau Fernand Cormon Edouard Detaille Gabriel Ferrier Jean Paul Laurens Luc Oliver Merson and Aim Morot who exhibited at the official Salon supported by the machinery of the State In its exposure of the rivalry conflict and struggle between the Salons and their artists this is an unprecedented history of dissension It also exposes how just below the welcoming internationalist veneer of this modern art centre intense persecutionist paranoia lay festering Whenever France's civilizing mission seemed culturally commercially or colonially threatened it erupted in waves of nationalist xenophobia turning artistic rivalry into bitter enmity In exposing how rivals became transmuted into conspirators ultimately this book reveals a paradox resonant in histories that celebrate the international triumph of French modern art that this magnetic centre which began by welcoming international modernists ended by attacking them for undermining its cultural supremacy contaminating its civilizing mission and politically persecuting the very modernist culture for which it has received historical renown
