Oriental Philosophers:

Thirty-Five Oriental Philosophers Diané Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2002-01-04 These are questions to which oriental thinkers have given a wide range of philosophical answers that are intellectually and imaginatively stimulating Thirty Five Oriental Philosophers is a succinctly informative introduction to the thought of thirty five important figures in the Chinese Indian Arab Japanese and Tibetan philosophical traditions Thinkers covered include founders such as Zoroaster Confucius Buddha and Muhammed as well as influential modern figures such as Gandhi Mao Tse Tung Suzuki and Nishida The book is divided into sections in which an introduction to the tradition it covers precedes the essays on its individual philosophers Notes further reading lists and cross references provide the student with a clear route to further study There is a glossary of key terms at the end of the book **The Eastern Philosophers** E. W. F.

Tomlin, 2022-04-29 First published in 1952 The Eastern Philosophers provides a straightforward account of the life and work of the great thinkers of the East and attempts to show in terms intelligible to the ordinary reader with what remarkable insistence the greatest of these thinkers dwell upon common themes It discusses themes like Babylonia and Israel Zoroaster Hinduism the Buddha and Buddhism the Hindu systems the Chinese Sages and Mohammed and Islam The book raises three fundamental questions what are the basic differences between Eastern and Western thought What does the Western World owe it to the thought of the East and vice versa In the third place to what extent is a rapprochement possible between the two worlds of thought This book is an essential read for students of Philosophy in general and Eastern Philosophy in particular **Chinese Philosophy** Ronnie L. Littlejohn, 2015-11-18 The philosophical traditions of China have arguably

influenced more human beings than any other China has been the home not only of its indigenous philosophical traditions of Confucianism and Daoism but also of uniquely modified forms of Buddhism As Ronnie L Littlejohn shows these traditions have for thousands of years formed the bedrock of the longest continuing civilization on the planet and Chinese philosophy has profoundly shaped the institutions social practices and psychological character of East and Southeast Asia The author here surveys the key texts and philosophical systems of Chinese thinkers in a completely original and illuminating way Ranging from the Han dynasty to the present he discusses the six classical schools of Chinese philosophy Yin Yang Ru Mo Ming Fa and Dao De the arrival of Buddhism in China and its distinctive development the central figures and movements from the end of the Tang dynasty to the introduction into China of Western thought and the impact of Chinese philosophers ranging from Confucius and Laozi to Tu Weiming on their equivalents in the West Chinese Philosophy and Philosophers Ronnie L. Littlejohn, 2021-12-30 For anyone looking to understand Chinese philosophy here is the place to start Introducing this vast and far reaching tradition Ronnie L Littlejohn tells you everything you need to know about the Chinese thinkers who have made the biggest contributions to the conversation of philosophy from the Han dynasty to the present He covers The six classical schools of Chinese philosophy Yin Yang Ru Mo Ming Fa and Dao De The arrival of Buddhism in China and its

distinctive development The central figures and movements from the end of the Tang dynasty to the introduction into China of Western thought The impact of Chinese philosophers ranging from Confucius and Laozi to Tu Weiming and some of the Western counterparts who addressed similar issues Weaving together key subjects thinkers and texts we see how Chinese traditions have profoundly shaped the institutions social practices and psychological character of not only East and Southeast Asia but the world we are living in Praised for its completely original and illuminating thematic approach this new edition includes updated reading lists a comparative chronology of Western and Chinese philosophers and additional translated extracts The Art of War & Other Classics of Eastern Philosophy Sun Tzu,Lao-Tzu,Confucius,Mencius,2016-10-01 The words of the ancient Chinese sages are as timeless as they are wise IBPA Benjamin Franklin Gold Award Winner 2017 The words of ancient Chinese philosophers have influenced other thinkers across the world for more than 2 000 years and continue to shape our ideas today The Art of War Other Classics of Eastern Philosophy includes translations of Sun Tzu s Art of War Lao Tzu s Tao Te Ching the teachings of the master sage Confucius and the writings of Mencius From insights on warfare and diplomacy to advice on how to deal with one s neighbors and colleagues this collection of classical Eastern philosophy will provide readers with countless nuggets of wisdom **An Introduction to Chinese Philosophy** JeeLoo Liu,2006-05-05 An Introduction to Chinese Philosophy unlocks the mystery of ancient Chinese philosophy and unravels the complexity of Chinese Buddhism by placing them in the contemporary context of discourse Elucidates the central issues and debates in Chinese philosophy its different schools of thought and its major philosophers Covers eight major philosophers in the ancient period among them Confucius Laozi and Zhuangzi Illuminates the links between different schools of philosophy Opens the door to further study of the relationship between Chinese and Western philosophy The Path Michael Puett,Christine Gross-Loh,2016-04-05 For the first time an award winning Harvard professor shares his wildly popular course on classical Chinese philosophy showing you how ancient ideas like the fallacy of the authentic self can guide you on the path to a good life today Why is a course on ancient Chinese philosophers one of the most popular at Harvard Because it challenges all our modern assumptions about what it takes to flourish Astonishing teachings emerged two thousand years ago through the work of a succession of Chinese scholars exploring how humans can improve themselves and their society And what are these counterintuitive ideas Transformation comes not from looking within for a true self but from creating conditions that produce new possibilities Good relationships come not from being sincere and authentic but from the rituals we perform within them A good life emerges not from planning it out but through training ourselves to respond well to small moments Influence comes not from wielding power but from holding back Excellence comes from what we choose to do not our natural abilities In other words The Path opens the mind Huffington Post and upends everything we are told about how to lead a good life Its most radical idea is that there is no path to follow in the first place just a journey we create anew at every moment by seeing and doing things differently With its spirited convincing vision revolutionary new insights can be gleaned

from this book on how to approach life's multifarious situations with both heart and head Kirkus Reviews A note from the publisher To read relevant passages from the original works of Chinese philosophy see our ebook Confucius Mencius Laozi Zhuangzi Xunzi Selected Passages available wherever books are sold

Studies in Chinese Philosophy and Philosophical Literature Angus Charles Graham, 1990-01-01 Graham addresses several fundamental problems in classical Chinese philosophy and in the nature and structure of the classical Chinese language These inquiries and reflections are both broad based and detailed Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole First Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character What is the nature of human nature What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts What sense can we make of the Kung sun Lung sophistries A second source of coherence is Graham's identification and articulation of those basic and often unconscious presuppositions that ground our own tradition By so doing he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view Oriental Thought Yong Choon Kim, 1981 Dr Yong Choon Kim is a distinguished scholar and educator He wrote this book to fill the need for a concise introduction to the philosophical and religious ideas of the East The work is analytical comparative and critical presentation in three parts Indian Thought Chinese Thought and the Thoughts of Korea and Japan It can serve for such courses as Oriental Philosophy Eastern Religions World Religions Comparative Religion and Comparative Thought It may also be used in other introductory courses in Religion Philosophy and Asian Culture The book should be very useful to the general reader interested in Oriental Thought and culture
