Origini e dottrina del fascismo Giovanni Gentile, 1934 **La Dottrina Del Fascismo** Giovanni Gentile, Benito Mussolini, 2019-11-03 La dottrina del fascismo un saggio del 1932 pubblicato nella voce Fascismo dell'Enciclopedia Italiana con la sola firma di Benito Mussolini come autore La prima parte intitolata Idee Fondamentali invece da attribuire al filosofo Giovanni Gentile che la pubblicò con il titolo *Origini e dottrina del fascismo* nel 1929 La seconda parte intitolata Dottrina politica e sociale invece da attribuire a Mussolini sebbene anche essa rivista da Giovanni Gentile **Origine e dottrina del fascismo** Giovanni Gentile, 1929 **Origini e dottrina del fascismo** Niccolò Domenico Evola, 1975 **Origini e dottrina del fascismo** Giovanni Gentile, 2020 **Origins and Doctrine of Fascism** Giovanni Gentile, 2011-12-31 This volume makes available some of Giovanni Gentile's more significant writings produced shortly before and after the Fascist accession to power in Italy **Fascist Ideology** Aristotle Kallis, 2002-01-04 Fascist Ideology is a comparative study of the expansionist foreign policies of fascist Italy and Nazi Germany from 1922-1945 Fascist Ideology provides a comparative investigation of fascist expansionism by focusing on the close relations between ideology and action under Mussolini and Hitler With an overview of the ideological motivations behind fascist expansionism and their impact on fascist policies this book explores the two main issues which have dominated the historiographical debates on the nature of fascist expansionism whether Italy's and Germany's particular expansionist tendencies can be attributed to a set of generic fascist values or were shaped by the long term uniquely national ambitions and developments since unification whether the pursuit of expansion was opportunistic or followed a grand design in each case *The Italian Fascist Party in Power* Dante L. Germino, 1959 The Italian Fascist Party in Power was first published in 1959 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Although much significant material on the Italian Fascist party became available when the regime collapsed scholars have not made extensive use of it until now In this study which is based on all the available sources Professor Germino describes the functions of the party explains how it was organized to perform tasks and discusses conflicts between the party and other power elements in the dictatorship He reaches a conclusion contrary to that of most other scholars that Fascist Italy was a full fledged totalitarian state resembling Nazi Germany and Soviet Russia in political structure and ideological content Professor Carl J. Friedrich of Harvard University writes I consider this a major contribution to our knowledge of totalitarian dictatorship There is nothing in the existing literature that can be compared to it either in terms of depth or analysis range of documentation or breadth of treatment Professor Taylor Cole of Duke University comments Professor Germino has presented an excellent case study of the Italian Fascist Party He has made use of more materials on the Party than any previous writer in English and has marshalled them effectively to support his contention that the Fascist Party did not differ in kind from the

Nazi and Soviet Communist parties on the eve of World War II His conclusion that on most though not all basic counts the Italian Fascist system was to be classified as totalitarian is controversial but it merits the careful attention of all students who are interested in the Italian Fascist period and in totalitarianism

MODERN LANGUAGES ASSOCIATION Introduces a way to study migration that privileges literary analysis over and against sociological data and insists on the importance of culture in the production of political identities This book argues that Italians first became racialized as white in S o Paulo Brazil at the turn of the twentieth century Whereas Italians in the United States struggled with xenophobia and were often not fully acknowledged as white in S o Paulo due to a series of social economic and cultural factors Italians became closely associated with ideas of whiteness modernization and civilization This book brings to light how the overlooked experiences of Italians in Brazil complicate conventional narratives about the racial ambiguity and oppression of Italians in the Americas on the one hand and the conflation of Italians with cultural and economic backwardness in Europe on the other In the book close readings of a wide array of texts the travel writings of Gina Lombroso Ferrero the short stories of Ant nio de Alc ntara Machado the columns of Jos Correia Leite the political essays of Miguel Reale and the memoirs of Z lia Gattai trace a New World Italian discourse or the overlapping narratives about Italian racial economic and cultural superiority that constructed and maintained Italians status as a model minority in S o Paulo These discursive practices represent essential antecedents to the racial nationalism that reared its ugly head in Italy throughout the twentieth century and remain central to contemporary debates about national identity in the Italian public sphere The Italian Colony of S o Paulo Race Class and Cultural Capital in Brazil is available from the publisher on an open access basis

Lo stato fascista e la nazione (contributo alla dottrina generale dello stato) Guido Bortolotto,1931

Mussolini's Fascist Philosopher M. E. Moss,2004 Giovanni Gentile was one of the most important and controversial thinkers of twentieth century Italy His philosophy and fascist ideas reflect the defining characteristics of the Italian romantic rebellion against European and English enlightenment thinking The Ariadne s thread which runs through and unifies all of Gentile s thought originates accordingly from his neo Hegelian reaction to the philosophy of Kant and of Kant s immediate predecessors The range of Gentile s ideas on pedagogy logic metaphysics political theory and aesthetics the original way in which he developed and adapted the thoughts of Hegel Fichte and Marx and finally his description of himself as the philosopher of fascism all encourage us to revisit and re evaluate his system This book reveals how Gentile came to advocate his actual idealism and evaluates his systematic philosophy by making explicit inconsistencies that arise from within his system and by questioning his idealist assumptions
