Star Origins and Wisdom of Animals Jacquelin Smith, 2010-09-07

As an animal communicator and psychic I'm able to see, feel, hear, and know what an animal is communicating to me. Also being clairvoyant I can see an animal's aura and essence. I teach people in my workshops how to look beyond an animal's physical form and how to connect heart to heart with the essence of an animal. The key to hearing our animal companions' essence is to look beyond the body and to connect with the amazing soul of the being. The body happens to be a physical form that the soul has created in order to learn and to fulfill a purpose. Telepathic communication with animals is a natural way of communicating. It is like a telephone conversation between two people. The telephone wires are the available lines of consciousness open between us that make the call possible. Perhaps you remember the films *Men in Black I* and *II*. They are not so far fetched as you might think. In both films there's a pug named Frank. We could say his soul was wearing a disguise so that he could accomplish his mission on Earth without attracting a lot of attention. In this book one dog's soul tells about being an interdimensional traveler while another discusses how difficult it was adjusting to his cat body because he's only lived on Earth twice. You will read about a groundhog who walked up to me and put his paw on my shoe and a hawk who flew to me after I had communicated with her telepathically.

Teutonic Mythology (The Complete Three-Volume Edition) Viktor Rydberg, 2022-12-10

Viktor Rydberg's *Teutonic Mythology* is a monumental three-volume exploration of Northern European myths encapsulating the vast tapestry of Teutonic traditions, folklore, and spiritual beliefs. Rydberg employs a critical and comparative literary style, deftly intertwining etymological analysis with narrative retellings that resonate with both historical scholarship and poetic expression. The work stands as a seminal contribution to the study of mythology, offering a comprehensive examination of gods, giants, and heroes that shaped the cultural identity of the Germanic peoples while situating these figures within a broader Indo-European mythological context. Rydberg, a Swedish poet, philosopher, and scholar, was deeply influenced by the Romantic movement and its celebration of national heritage and folklore. His dedication to reviving and cataloging the myths of his ancestors led him to write this exhaustive study in which he sought to reclaim and illuminate the spiritual legacy of the Teutonic past. His academic rigor and passionate advocacy for cultural understanding reflect a broader yearning in the 19th century to reconnect with pre-Christian roots in contemporary society. *Teutonic Mythology* is an essential read for anyone interested in the foundations of Western mythology and its echoes in modern literature. Scholars, students, and enthusiasts alike will find Rydberg's rich narrative and analytical insights invaluable as they embark on a journey through the enchanting and often complex world of Teutonic myths.
