**Enemy Images in American History** Ragnhild Fiebig-von Hase, Ursula Lehmkuhl, 1998-01-01 It seems to be a tenet of the human condition to perceive others as different and potentially hostile In nearly all societies stereotypes are developed to stigmatize suspected enemies within and without The American case is particularly interesting in this respect because American society consists of nothing but others to be open to others and welcome those who are different is one of the basic tenets of the country However this principle often conflicts with the need to integrate all these strangers into a homogeneous governable society which causes the formation of hostile stereotypes of certain ethnic groups that do not fit in The authors in this volume look at the development of these enemy images which form a fairly consistent pattern from the period of the American Revolution to the post World War II era In doing so they focus on the question of to what extent these enemy images influence the formulation and outcome of foreign domestic and immigration policies *United States Army in the World War, 1917-1919* United States. **G.S. Isserson and the War of the Future** G.S. Isserson, 2016-07-25 Georgii Samoilovich Isserson 1898 1976 was one of the most prescient and prolific authors on military art in the years preceding World War II His theories greatly influenced the Red Army's conduct of operations and were instrumental in achieving victory over Germany This book gathers together for the first time English translations of Isserson's most influential works including some that are still classified His writings on the preparation and conduct of the deep offensive operation the deployment of tanks mechanized infantry air power and airborne troops to penetrate deeply echeloned defenses also serve as a primer on how to construct a position to defeat such an attack His well argued defense of the deep operation based on an examination of recent wars and his reminiscences about the people and events that shaped Soviet military theory in the 1930s are included
