animals **Rehabilitating Bodies** Lisa A. Long, 2013-06-15 The American Civil War is one of the most documented romanticized and perennially reenacted events in American history. In *Rehabilitating Bodies* Health History and the American Civil War Lisa A. Long charts how its extreme carnage dictated the Civil War's development into a lasting trope that expresses not only altered social, economic and national relationships but also an emergent self consciousness. Looking to a wide range of literary, medical and historical texts, she explores how they insist on the intimate relationship between the war and a variety of invisible wounds, illnesses and infirmities that beset Americans throughout the late nineteenth and early twentieth centuries and plague us still today. Long shows how efforts to narrate credibly the many and sometimes illusory sensations elicited by the Civil War led writers to the modern discourses of health and history which are premised on the existence of a corporeal and often critical reality that practitioners cannot know fully yet believe in nevertheless. Professional thinkers and doers both literally and figuratively sought to rehabilitate, to reclothe, normalize and stabilize Civil War bodies and the stories that accounted for them. Taking a fresh look at the work of canonical war writers such as Louisa May Alcott and Stephen Crane while examining anew public records, journalism and medical writing, Long brings the study of the Civil War into conversation with recent critical work on bodily ontology and epistemology and theories of narrative and history.

The Oxford Encyclopedia of American Literature Jay Parini, 2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present. At the core of the Encyclopedia lie 250 essays on poets, playwrights, essayists and novelists. Figures such as Whitman, Melville, Faulkner, Frost and Morrison are discussed in detail, with each examined in the context of his or her times, an assessment of the writer's current reputation, a bibliography of major works and a list of major critical and biographical works about the writer. Fifty entries on major works such as *Moby-Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman* and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach. The Encyclopedia also contains essays on literary movements, periods and themes, pulling together a broad range of information and making connections between them. Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease. The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature, libraries looking for one comprehensive source and readers interested in American literature, its authors and its connection with various areas of study. **More Than Just War** Charles A. Jones, 2013 This book raises questions about the just war tradition through a critical examination of its revival and by juxtaposing it with a literary phenomenology of war. Recent public debate about war has leaned heavily on a just war tradition, dating back many centuries. This book examines the recent revival of that tradition in the United States and Britain, arguing that it is less coherent and comprehensive as an approach to the ethical issues arising from war than is generally supposed and that it is inconsistent in

important ways with the theology on which it was originally based A second line of criticism is mounted through close readings of modern texts in English from Britain Australia and the USA that together constitute a more subjective bottom up understanding of the moral dilemmas of military life In this second tradition the task of representing war is seen as more problematic and its rationality more questionable than in just war discourse Works by William Shakespeare Sir Walter Scott James Fennimore Cooper Stephen Crane John Buchan Robert Louis Stevenson Joseph Conrad Tim O'Brien and Kurt Vonnegut are featured The book will be of great interest to students and scholars of security studies military studies theology and international relations

Spectacular Narratives Giorgio Mariani, 1992

Despite Stephen Crane's great interest in social themes of his time few critics have analyzed the historical and political significance of his work This book demonstrates that only an analysis capable of grasping the politics of Crane's texts can adequately account for their stylistic and aesthetic qualities Focusing on Maggie A Girl of the Streets and The Red Badge of Courage as well as on seldom studied bestsellers of the American 1890s such as R H Davis's Soldiers of Fortune and F M Crawford's Via Crucis it offers new insights into the formal and ideological relationship of Crane's fiction to popular literature

The Pluralistic Philosophy of Stephen Crane Patrick Kiaran Dooley, 1993 In spite of an extensive secondary literature that bristles with philosophical labels concerning his outlook Stephen Crane's philosophy has been virtually ignored Patrick Dooley's systematic examination of Crane's writings novels sketches short stories news dispatches and poems whether famous or previously ignored discloses coherent but subtle metaphysical epistemological social and ethical positions Dooley provides a sustained direct discussion of Crane's philosophy and offers vivid depictions of fundamental philosophical issues Crane lived in a society that had lost confidence in religion's ability to answer questions about the nature of reality the significance of human actions the meaning of truth and the validity of conventional morality Crane's fundamental philosophical view Dooley finds is that reality is comprised of changing and interrelated processes
