New Essays On The Rise Of Silas Lapham:

New Essays on The Rise of Silas Lapham ,2000 **New Essays on The Rise of Silas Lapham** ,1991 *New Essays on The Rise of Silas Lapham* ANON.,1991 **The Cambridge Companion to American Realism and Naturalism** Donald Pizer,1995-06-30 This Companion examines a number of issues related to the terms realism and naturalism The introduction seeks both to discuss the problems in the use of these two terms in relation to late nineteenth century fiction and to describe the history of previous efforts to make the terms expressive of American writing of this period The Companion includes ten essays which fall into four categories essays on the historical context of realism and naturalism by Louis Budd and Richard Lehan essays on critical approaches to the movements since the early 1970s by Michael Anesko essays on the efforts to expand the canon of realism and naturalism by Elizabeth Ammons and a full scale discussion of ten major texts from W D Howell s The Rise of Silas Lapham to Jack London s The Call of the Wild by John W Crowley Tom Quirk J C Levenson Blanche Gelfant Barbara Hochman and Jacqueline Tavernier Courbin **The Historical and Political Turn in Literary Studies** Winfried Fluck,1995 Male Sexuality Under Surveillance Graham Thompson,2005-04 Male Sexuality under Surveillance is a lively intelligent and expertly argued analysis of the construction of male sexuality in the business office Graham Thompson interweaves three main threads a historicized cultural analysis of the development of the modern business office from its beginnings in the early nineteenth century to the present day a Foucauldian discussion of the office as the site of various disciplinary practices and a queer theoretical discussion of the textualization of the gay male body as a device for producing a taxonomy of male male relations The combination of these themes produces a study that is fresh insightful and provocative

American Literary Realism and the Failed Promise of Contract Brook Thomas,2023-04-28 In American Literary Realism and the Failed Promise of Contract the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era s literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society s inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract s promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain s Adventures of Huckleberry Finn and James s The American evoke moments where relationships of status could theoretically transform into equitable contractual interactions However these fictional moments of promise often falter reflecting contract s inability to establish a truly egalitarian social order The rise of corporate capitalism further complicated contract s promise as corporations fostered a form of economic structure that subordinated

individual agency reinforcing rather than alleviating social inequities The text also considers how these issues resonate today especially as contractual ideals influence contemporary notions of social justice While the promise of contract continues to appeal to a vision of equal opportunity the persistent influence of race class and gender hierarchies complicates its realization The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions challenging readers to reimagine a society where individuals might genuinely be free and equal not just in theory but in practice In doing so this book presents realism not as an endorsement of the status quo but as a field of critical inquiry urging us to address the unresolved questions about equity that persist in American society This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

The Financial Imaginary Alison Shonkwiler, 2017-02-14 As the world has been reshaped since the 1970s by neoliberalism and globalization increasing financial abstraction has presented a new political urgency for contemporary writers Globalized finance the return to Gilded Age levels of inequality and the emergence of new technologies pose a similar challenge to the one faced by American social realists a century ago making the virtualization of capitalism legible within the conventions of the realist novel In *The Financial Imaginary* Alison Shonkwiler reads texts by Richard Powers Don DeLillo Jane Smiley Teddy Wayne and Mohsin Hamid to examine how fiction confronts the formal and representational mystifications of the economic As Shonkwiler shows these contemporary writers navigate the social moral and class preoccupations of American economic fiction as shaped by such writers as William Dean Howells Henry James Frank Norris and Theodore Dreiser even as they probe the novel's inadequacies to tell the story of an increasingly abstract world system Drawing a connection from historical and theoretical accounts of financialization to the formal contours of contemporary fiction *The Financial Imaginary* examines the persistent yet vexed relationship between financial representation and the demands of literary realism It argues that the novel is essential to understanding our relation to the mystifications of abstraction past and present
