sources This suggests that history does not produce the most likely meaning of the past but rather can only generate alternative meanings The lead volume in a major new series on historical thinking and practice this is an accessible yet absorbing study that breaks new ground in discussing the stage history is at now and perhaps most engagingly the direction it will take in the future *The Historians' History of the World: The British colonies, The United States (early colonial period)* Henry Smith Williams,1904 **History of the United States** Alma Holman Burton,1899 **The History of Greece from Its Commencement to the Close of the Independence of the Greek Nation: Up to the end of the 6th century B.C** Adolf Holm,1894 *The Ancient History of the East* Philip Smith,1891 *History of Manufactures in the United States ...* Victor Selden Clark,1929 **The Granite Monthly** Henry Harrison Metcalf,John Norris McClintock,1904 Contains articles on the White Mountains and a map **Humanities** ,1986 **Studies in Irish history 1603-1649 Lectures.
