New Humanity of Intuition C. Jinarajadasa, 2013-10 This is a new release of the original 1938 edition *Chicorel Index to Parapsychology and Occult Books* Marietta Chicorel, 1978 *The Theosophist* Helena Petrovna Blavatsky, Henry Steel Olcott, Annie Besant, George Sydney Arundale, 1991 Guide to Reprints, 2009 Ways & Power Of Love Pitirim A. Sorokin, 2015-10-22 The Ways and Power of Love was originally published in 1954 when Pitirim Sorokin was in the twilight of his career and leading the Harvard Research Center in Creative Altruism His elaborate scientific analysis of love with regard to its higher and lower forms its causes and effects its human and cosmic significance and its core features constitutes the first study on this topic in world literature to date Sorokin was the one absolutely essential twentieth century pioneer in the study of love at the interface of science and religion Bringing The Ways and Power of Love back into print allows a new generation of readers to appreciate Sorokin s genius and to move forward with his endeavor at a time when civilization itself continues to be threatened by a marked inability to live up to the ideal of love for all humankind It is certainly right to hope with Sorokin that progress in knowledge about love can move humanity forward to a better future Turning the sciences toward the study of love is no easy task but it can and must be done **Return from Exile** Ashis Nandy, 1998 This volume brings together three significant works of Ashis Nandy *Alternative Sciences* *The Illegitimacy of Nationalism* and *The Savage Freud* It is essential reading for social and political scientists and all those interested in the complexities of Indian politics and culture A Carnival for Science Shiv Visvanathan, 1997 This provocative and passionate book contains a critique of science The author argues that violence is encoded in the world view of science and that development is not unequivocally humanitarian but often genocidal Alexandre Kojève Luis J. Pedrazuela, 2024-04-08 This edited volume addresses Alexandre Kojève s work from different perspectives emphasizing the continuity between his early reception of a set of non philosophical and philosophical influences and that which he might have sought himself to exercise in a pedagogical and practical manner The first part of the book comprises six essays in which their authors explore Kojève s understanding of art religion and atheism and his reception of the thought of Hegel Marx and Carl Schmitt The book s second part is made up by two contributions that tackle respectively Kojève s conceptions of the end of history and empire in the light of his notion of Sophia or Wisdom and his understanding of the relationship between philosophy and power in the light of an exegetical reading of the debate he held with Leo Strauss The authors of the final three essays set out to explore the extent to which Kojève s previous processing of a set of non philosophical and philosophical influences might have resulted in three increasingly concrete outcomes namely his notion of authority the Lacanian mirror stage and global trade A History of Russian Philosophy 1830-1930 G.
