New Israelis:

A History of Israel Howard M. Sachar, 2013-07-31 First published in 1976 Howard M Sachar's *A History of Israel From the Rise of Zionism to Our Time* was regarded one of the most valuable works available detailing the history of this still relatively young country Decades later readers can again be immersed in this monumental work The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s the rise of Jewish nationalism the beginning of the political Zionist movement and later how the movement changed after Theodor Herzl the Balfour Declaration the factors that led to the Arab Jewish confrontation Palestine and its role both during the Second World War and after the war of independence and the many wars that followed it over the next few decades and the development of the Israeli republic and the many challenges it faced both domestic and foreign and still faces today This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world *Israel* Selwyn Ilan Troen, Noah Lucas, 1995-01-01 This book provides new interpretations and research findings from a wide spectrum of viewpoints on Israel's formative first decade of independence *The Pursuit of Peace and the Crisis of Israeli Identity* D. Waxman, 2006-09-02 This book offers a theoretically informed analysis of the way in which Israeli national identity has shaped Israel's foreign policy By linking domestic identity politics to Israeli foreign policy it reveals how a crisis of Israeli identity inflamed the debate in Israel over the Oslo peace process **The Globalization of Israel** Uri Ram, 2013-10-18 This book focuses on how globalization is impacting contemporary Israel It is a concise and originally argued introduction to Israel but the author Uri Ram is careful to frame his analysis in a broader discussion of Israeli history and broader social currents Focusing in particular on two defining and conflicting contemporary trends one toward advanced liberal democracy with a cosmopolitan edge and the other toward ethno religious traditionalism and rejection of the secularism associated with market driven globalization The cosmopolitan high tech driven city of Tel Aviv represents the former trend and Jerusalem a city increasingly dominated by orthodox Jews represents the latter Using Benjamin Barber's Jihad versus McWorld thesis to good effect Ram's book will stand as an ideal introduction to contemporary Israel and its place in the world **Israel Digest**, 1955

Historical Dictionary of Israel Bernard Reich, David H. Goldberg, 2008-04-25 Since its creation the State of Israel has been a magnet for attention A country beset by conflict in its region and faced with the need to integrate immigrants of disparate backgrounds into a modern and advanced state Israel has preoccupied observers scholars and journalists since its independence in 1948 Israel and its politics have been the subject of substantial and often highly partisan literature being hotly and vigorously debated both at home and abroad The second edition of the *Historical Dictionary of Israel* addresses the need in the literature on Israel for a comprehensive impartial information source about the various diplomatic and political personalities institutions organizations events concepts and documents that together define the political life of the Jewish state This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary
