

DIGITAL LITERACY

Digital literacy is part of media literacy. They're both included in the idea of "information literacy" which is the ability to effectively find, identify, evaluate and use information. Information and media literacy enables people to share and make informed judgments as users of information and media, as well as to become skillful creators and producers of information and media messages in their own right.

considerable challenges Publisher s description **Contemporary Poetics** Louis Armand, 2007-11-20 Exploring the boundaries of one of the most contested fields of literary study a field that in fact shares territory with philology aesthetics cultural theory philosophy and even cybernetics this volume gathers a body of critical writings that taken together broadly delineate a possible poetics of the contemporary In these essays the most interesting and distinguished theorists in the field renegotiate the contours of what might constitute contemporary poetics ranging from the historical advent of concrete poetry to the current technopoetics of cyberspace Concerned with a poetics that extends beyond our own time as a mere marker of present day literary activity their work addresses the limits of a writing practice beginning with St phane Mallarm in the late nineteenth century that engages concretely with what it means to be contemporary Charles Bernstein s Swiftian satire of generative poetics and the textual apparatus together with Marjorie Perloff s critical historical treatment of writing after

Bernstein and other proponents of language poetry provides an itinerary of contemporary poetics in terms of both theory and practice. The other essays consider precursors recognizable figures within the histories or prehistories of contemporary poetics from Kafka and Joyce to Wallace Stevens and Kathy Acker. Conjunctions in which more strictly theoretical and poetical texts enact a concerted engagement with rhetoric, prosody and the vicissitudes of intelligibility. Cursors which point to the open possibilities of invention from Augusto de Campos's concrete poetics to the codework of Alan Sondheim and transpositions defining the limits of poetic invention by way of technology.
