Lupien, 2022-10-07 Our book explains the movement to establish online trust through the decentralization of value, identity, and data ownership. Our target audience is students, professionals, and managers who want to learn about the overall Web 3.0 landscape: the investments, the size of markets, major players, and the global reach, as well as the economic and social value of applications. We present applications that use Web 3.0 technologies to unlock value in DeFi, NFTs, supply chains, media, identity, credentials, metaverses, and more.
