The American Occupation of Tibetan Buddhism Eve Mullen, 2001 Encountering Buddhism in Twentieth-Century British and American Literature Lawrence Normand, Alison Winch, 2013-10-24 *Encountering Buddhism in Twentieth Century British and American Literature* explores the ways in which 20th century literature has been influenced by Buddhism and has been in turn a major factor in bringing about Buddhism's increasing spread and influence in the West. Focussing on Britain and the United States, Buddhism's influence on a range of key literary texts will be examined in the context of those societies evolving modernity. Writers discussed include T S Eliot, Hermann Hesse, Virginia Woolf, Jack Kerouac, Allen Ginsberg, J D Salinger, Iris Murdoch, Maxine Hong Kingston. This book brings together for the first time a series of context rich interpretations that demonstrate the importance of literature in this ongoing cultural change in Britain and the United States.

Buddha and His Legacy: From Siddhartha to Zen and Mindfulness. Roan Halberg, PENNOCLE, 2025-12-18 How did an Indian prince become one of the most influential spiritual teachers in human history? And how did his teachings evolve over more than 2,500 years into a world religion followed by hundreds of millions? This book presents the complete history of Buddhism from Siddhartha's birth in the 5th century BCE to the modern mindfulness movement. It explores the formation of the major Buddhist schools, the spread of Buddhism along the Silk Road to China, Japan and Tibet, and its eventual arrival in the Western world. Thoroughly researched and vividly written, this work makes the fascinating development of one of the world's great religions accessible to every reader. An essential reference for anyone seeking to understand Buddhism in its full historical depth. **The Routledge Handbook of Buddhist-Christian Studies** Carol Anderson, Thomas

Cattoi, 2022-09-30 Buddhist-Christian dialogue has a long and complex history that stretches back to the first centuries of the common era. Comprising 42 international and disciplinarily diverse chapters, this volume begins by setting up a framework for examining the nature of Buddhist-Christian interreligious dialogue, discussing how research in this area has been conducted in the past and considering future theoretical directions. Subsequent chapters delve into important episodes in the history of Buddhist-Christian dialogue: contemporary conversations such as monastic interreligious dialogue, multiple religious identity and dual religious practice, and Buddhist-Christian cooperation in social justice, social engagement, pastoral care, and interreligious education settings. The volume closes with a section devoted to comparative and constructive explorations of different speculative themes that range from the theological to the philosophical or experiential. This handbook explores how the study of Buddhist-Christian relations has been and ought to be done. *The Routledge Handbook of Buddhist-Christian Studies* is essential reading for researchers and students interested in Buddhist-Christian studies, Asian religions, and interreligious relationships. It will be of interest to those in fields such as anthropology, political science, theology, and history.

Christianity and Buddhism Whalen Lai,Michael von Brück,2001 In Christianity and Buddhism Whalen Lai and Michael von Bruck bring together for scholars students and interested lay observers the developments and understandings reached in Christian Buddhist dialogue in six key regions of the world After a two generations long exploration by scholars and devotees the authors judge it opportune to furnish a bird s eye view of the terrain that dialogue has covered Lai and von Bruck explore questions such as what is meant by a theism and God talk in the two traditions asking whether the dialogue has revealed irreconcilable opposition or areas where each side can profit from insights from the other They acknowledge that similarities of language in the two traditions can mask differences in substance while differences in language can mask agreements in substance and it is not always clear which is the case While a first generation dialoguer Joseph Kitagawa once noted that mutual monologue was a better description of the Christian Buddhist project than dialogue Lai and von Bruck point to areas of important dynamic understanding and clarification of where dialogue needs to go to address disagreements as well
