**Peter Kenneth Stevenson**

## **New Earth Of The New Man:**

**Beyond the Word** Sitakant Mahapatra,1993 The essays in this anthology seek to look at the multiple gestures of tradition in relation to our own times and in some doing they have a relevance for the continuing debate on modern and post modern era *God in our Nature* Peter Kenneth Stevenson,2007-09-01 Arguably the leading Scottish theologian of the nineteenth century John McLeod Campbell's theology is much criticized and often misunderstood Previous accounts have tended to overlook both his sermons and his Christology This reassessment of his thought breaks new ground by offering a detailed study of his sermons and by identifying the distinctive Christology which contributes to a clearer understanding of his doctrine of atonement Drawing upon the full range of Campbell's work *God in our Nature* brings to light a trinitarian theologian whose pilgrimage represents a journey within evangelicalism rather than a departure from the evangelical fold

The Beginning of God Joshua Olumoye,2023-10-13 God is without beginning and is without end but when the bible says he is the beginning and the end bible is referring to the beginning of his project and the end of his project Particularly the beginning and the end of the living creatures angels and the human beings We all begin with him but we will end up either in heaven or hell good or bad respectively Bible says all things were created by God good and evil Isaiah 45 7 This book reveals the relationship between the creator and the creatures from beginning to the end and the reason why God created evil and good The Divine Book of Holy and Eternal Wisdom, Revealing the Word of God ... Including Other Illustrations and Testimonies, Etc. [Edited by S. Y. Wells and C. Green.] Paulina Bates,1849 *Annual Session of the Baptist Congress* ,1890

The Last Days Are Left Behind James Ellis,2008-06 Have you been wondering as a Christian or non Christian what many think and expect will happen in the last days or end times with all the talk and focus in the headlines and some churches about our future And with all the events taking place in the Middle East especially Israel And Iran Are you confused because of various end time scenarios and conflicting opinions promoted through popular books on prophecy the Left Behind series televangelists preachers and others speaking of a great tribulation rapture Armageddon Apocalypse the destruction of the earth a new heaven and earth a second coming and a millennium There has been an overload of teaching and information about these things over the last century however sincere and cloaked in good intentions yet with long held and deep seated traditions and doctrines all borne of a lack of accurate knowledge particularly the Hebrew and Greek and information based on compelling evidence Would you like to know what the Bible actually says about all these issues For God's Word itself Let Scripture Interpret Scripture and the Holy Spirit are the only necessary interpreters *The Last Days Are Left Behind* will challenge your thinking help to erase the confusion and provide clarity regarding the present day purpose of God Author James Ellis demonstrates end time truth based logically on solid evidence after a linguistically accurate biblically consistent and intellectually honest examination of the Bible's prophetic passages and verses the original languages Hebrew and Greek the social cultural and historical context of Scripture and the relevance of the audience spoken or written to in God's Word

**The Bible and the Future** Anthony A. Hoekema, 1994 Anthony Hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject Free of sensationalism he evinces a reverence for the Scriptures and a measured scholarship One of the best studies on eschatology available Christianity Today

**Homesick** Lyla Yastion, 2018-09-15 Human induced climate change is emerging as the most critical issue of the modern era Ninety seven percent of climate scientists now confirm that human extraction and burning of fossil fuels along with rampant deforestation is causing a rapid build up of carbon dioxide and other greenhouse gases in air and water These emissions heat up the planet and may be pushing Earth s capacity beyond the threshold at which equilibrium can be restored Global warming is sustained by a global capitalist economy dependent upon the fossil fuel industry and agribusiness both of which are unsustainable The toxic effects of air pollution ocean acidification and soil degradation are harming the health of all species Through an interdisciplinary approach that brings in the perspectives of the physical sciences psychology anthropology economics cultural history and spirituality Homesick investigates the evolutionary path by which human beings have arrived at this precarious juncture It proposes that this perilous detour in human cultural evolution arises from a fallacious belief that the human species unlike other species is not bound by ecological laws but has a special right to control and master the natural world Human beings suffer from the illusion that they are separate from the Earth their planetary home which is perceived as an object a commodity to exploit through technology They have forgotten what indigenous peoples still remember humanity is part of not apart from the natural world Homesick argues that cultural transformation towards a sustainable future is possible when human beings reawaken to Nature as partner and provider As memory of their embeddedness in the natural world is aroused they will experience love and respect for the interdependent web of life that sustains them This reawakening incrementally induces a radical change in thinking within society and sets in motion a paradigm shift Cultural institutions are then reshaped to match this new benign worldview Messages of the Men and Religion Movement Men and Religion Forward Movement, 1912 **The Millennial Harbinger Abridged** , 1902
