**A New Constitution for Australia** Bede Harris, 2013-03-04 First published in 2002 Routledge is an imprint of Taylor Francis an informa company [Official Year Book of the Commonwealth of Australia](#) Australia. Commonwealth Bureau of Census and Statistics, 1909 Issues for 1901-07-1901-20 include corrected statistics for the period 1788 to 1900 **Official Year Book of the Commonwealth of Australia**, 1911 Issues for 1901-07-1901-20 include corrected statistics for the period 1788 to 1900 *The Constitution of the Commonwealth of Australia* Sir William Harrison Moore, 1902 **Official Year Book of the Commonwealth of Australia No. 3 - 1910**, [Official Year Book of the Commonwealth of Australia No. 22 - 1929](#), **Australian Constitutional Development** Edward Sweetman, 1925 [Official Year Book of the Commonwealth of Australia No. 2 - 1909](#), *A Vision for Australia* Klaas Woltring, 2025-09-26 Australia stands at a crossroads The Albanese Government's 2025 election victory has revealed both the promise of change and the deep flaws in the nation's democratic system. With a primary vote of just 34.7% delivering a majority government the cracks in our single member electoral system are impossible to ignore. This book calls for bold reform proportional representation a new and adaptable Constitution and a renewed commitment to civic education. From the failure of the Voice referendum to the housing crisis from the dominance of major parties to the rise of Independents and Greens the evidence is clear our outdated structures no longer reflect the diversity and aspirations of modern Australia. Drawing on history comparative governance models and the momentum of shifting voter sentiment this work lays out a roadmap for a more inclusive and representative democracy. It is a rallying cry for citizens leaders and lawmakers to embrace systemic change and secure a stronger fairer future for all Australians.

It asks Australians to envisage the sort of future we could have if we take control and demand the changes necessary for a better government and a better political system. This book offers a journey to a more honest system one less corrupted by money and one that can give citizens better control over elected and appointed representatives. It has the potential of forcing politicians to think in terms of what's best for the nation instead of pursuing the narrow perspective of winning the next election for a political party. The book is in two parts. The first part explains the reasoning and philosophy behind each chapter of a new and better political system a system contained in the draft of a new Constitution. The second part of the book is the drafted Constitution itself. Do Australians want a true and honest Constitution a document created by hundreds of people from all around the country? This

new Constitution can be easily read and understood because it s written by the people and for the people And no one needs a law degree to understand this Primary Law for an independent Australia      **The Official Guide to Western Australia**
