## New Entrance Design:

**New Entrance Design** Eva Dallo,2005 The entrance to a house acts as its visiting card Its conception has changed enormously over the years as has its social uses and the space that was once considered indispensable for receiving guests and keeping the house away from view on first contact whether out of a desire to preserve privacy or a belief that it was bad taste to put living space on display has changed to such an extent that it is on the verge of disappearing from many homes In fact in many cases the entrance is the axis around which the space will be used to greater advantage and the layout of the various areas will follow a logical order in contrast a misguided placement results in an erroneous starting point for a residential project So we are devoting these 192 pages to solutions for entrances of various shapes and styles belonging to different types of homes from all over the world drawn up by a wide range of architects
