## **New Face Of Terrorism Threats From Weapons Of Mass Destruction:**

**The New Face of Terrorism** Nadine Gurr, Benjamin Cole, 2000 This revised edition is a comprehensive account of the technological and political possibilities and dangers presented by weapons of mass destruction in the wake of September 11th 2001. The technical and organizational sophistication of the attacks on September 11th heralds a new era in the age old war against terrorism. After these attacks attention became focused on the activities and capacities of Islamic extremist groups such as Osama bin Laden's al Qaeda organization but the reality is that terrorist threats could come from almost any quarter.

**The Metaphysics of Terror** Rasmus Ugilt, 2014-03-13 This groundbreaking study aims to provide a philosophical analysis of the phenomenon of terror in particular the political reactions to it such as public anxiety and pre-emptive wars and to re-articulate the understanding of metaphysics through a consideration of its political implications. The book reveals that the key feature of terror is potentiality that is terror is always about what could happen as opposed to what is likely to happen. This notion helps broaden the scope of the investigation as the argument spans the ontology, political psychology, political cosmology and political theology of terror. Each chapter begins with an empirical discussion examining such topics as the political practices in reaction to terror, the politics of fear, warfare, sovereignty and the debates about the state of exception in relation to anti-terrorism laws. This unique examination of our political reality uncovers the axiom of terrorism namely its potentiality. Going beyond the scope of terrorism studies, it explains the philosophical underpinnings of terror without compromising on the empirical facts drawn from policymaking, jurisprudence and related fields.

**Will Terrorists Go Nuclear?** Brian Michael Jenkins, 2009-12-02 For more than 30 years Jenkins has been advising the military, government and prestigious think tanks on the dangers of nuclear proliferation. Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons.

**Social Issues in America** James Ciment, 2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia.

**Hunting the President** Mel Ayton, 2014-04-14 In American history four U.S. Presidents have been murdered at the hands of an assassin. In each case the assassinations changed the course of American history. But most historians have overlooked or downplayed the many threats modern presidents have faced and survived. Author Mel Ayton sets the record straight in his new book *Hunting the President: Threats, Plots, and Assassination Attempts From FDR to Obama*, telling the sensational story of largely forgotten or never before revealed malicious attempts to slay America's leaders. Supported by court records, newspaper archives, government reports, FBI files and transcripts of interviews from presidential libraries, *Hunting the President* reveals how an armed would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him. How the Secret Service foiled a plot by a Cuban immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president's motorcade route. How a

deranged man broke into Reagan's California home and attempted to strangle the former president before he was subdued by Secret Service agents. In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt. The relationships presidents held with their protectors and the effect it had on the Secret Service's mission. Hunting the President opens the vault of stories about how many of our recent Presidents have come within a hair's breadth of assassination leaving America's fate in the balance. Most of these stories have remained buried until now.

**Asymmetric Warfare** Rod Thornton, 2007-02-12 An accessible introduction to a key theme in contemporary security and conflict studies this title unpacks the meaning and significance of asymmetric warfare in both civilian and military realms.

Dean T. Olson, 2009 On September 11 2001 America's 700 000 law enforcement officers were forcefully introduced to a new era in policing after Islamist terrorists perpetrated the most savage and horrific terrorist violence ever on American soil. In spite of the post 9 11 proliferation of information about Islamist terrorism many law enforcement officers remain uninformed about the nature, scope and reality of this threat. Even the FBI America's lead law enforcement agency in the struggle against Islamist terrorism fails to arm its agents with accurate and comprehensive information to understand this patient, merciless and fanatical foe. This manual was prepared to address this knowledge void by explaining the underlying politico-religious motivations that drives Islamist terrorism. It contains chapters that explain Islamist terrorism and describe the history of Islam and the Prophet Muhammad. The tenets of Islam and the ideology used to justify terrorist atrocities ranging from suicide homicide bombings in Israel to the slaughter of school children in Beslan Russia are documented. The history of Jihad, the oldest and most successful international Islamist group in the world and how this group has established an effective subversive apparatus in America that works tirelessly to dismantle our democratic freedoms is described. The text explains that by using a soft form of Jihad this group seeks to destroy Western ideals and democracy with the goal of replacing them.

with a fascist totalitarian ideology to obtain world domination and the forced imposition of a seventh century politico religious system of law The radicalization process that can lead apparently well integrated Muslim citizens to terrorism is discussed including the Taliban and al Qaeda terrorist groups A summary of comprehensive information detailing the Islamist groups active within America and the dangers they pose to Homeland Security is provided In addition the Appendices contain an Arabic Name Analysis Ritual Prayer Salat Jihad Holy War Verse in the Koran Jihad campaigns in history The Last Night letter by Muhammad Atta who was the leader in the 9 11 attacks and an explanatory memorandum on the general strategic goal for the Muslim Brotherhood in North America Perfect Enemy provides unbiased and accurate information to acquaint our law enforcement officers and Homeland Security officials with the Islamist mindset and threat Knowing our adversaries is a fundamental first step in defeating their violent intentions and ensuring our survival peace and safety Publisher
