**Find Your Miracle** Kerry Shook, Chris Shook, 2016-10-04 Discover the miracle you've been looking for through an exploration of nine miracles of Jesus each filled with meaning insight and discovery for all who desperately need a miracle of their own Healing the blind Walking on water Calming the storm Feeding thousands with a few loaves and fish Every miracle Jesus performed was for a purpose There was provision for that specific moment in time But what if each miracle was also embedded with the promise of future provision for you In *Find Your Miracle* New York Times best selling authors Kerry and Chris Shook take a fresh look at nine of Jesus's most incredible times of healing and supernatural intervention The Shooks unpack these moments in modern language to usher you into the pain desperation breakthrough and miracle of each encounter Plus they reveal a miracle map that connects that moment long ago to our needs today for revelation transformation and restoration Weaving together the biblical narrative with contemporary real life application Kerry and Chris Shook arrange these New Testament miracles under four overarching descriptions of Jesus the Miracle Worker the Healer the Provider the Storm Chaser and the Life Giver Rather than running from our overwhelming situations the Shooks encourage us to remain steady fully trusting that Jesus stands ready to guide us to the miracle we most need and possibly least expect

*Works and Lives* Clifford Geertz, 1988 The illusion that ethnography is a matter of sorting strange and irregular facts into familiar and orderly categories this is magic that is technology has long since been exploded What it is instead however is less clear That it might be a kind of writing putting things to paper has now and then occurred to those engaged in producing it consuming it or both But the examination of it as such has been impeded by several considerations none of them very reasonable One of these especially weighty among the producers has been simply that it is an unanthropological sort of thing to do What a proper ethnographer ought properly to be doing is going out to places coming back with information about how people live there and making that information available to the professional community in practical form not lounging about in libraries reflecting on literary questions Excessive concern which in practice usually means any concern at all with how ethnographic texts are constructed seems like an unhealthy self absorption time wasting at best hypochondriacal at worst The advantage of shifting at least part of our attention from the fascinations of field work which have held us so long in thrall to those of writing is not only that this difficulty will become more clearly understood but also that we shall learn to read with a more percipient eye A hundred and fifteen years if we date our profession as conventionally from Tylor of asseverational prose and literary innocence is long enough
