The Oxford Handbook of Consumption Dr. Frederick F. Wherry, Dr. Ian Woodward, 2019-09-09 The Oxford Handbook of Consumption consolidates the most innovative recent work conducted by social scientists in the field of consumption studies and identifies some of the most fruitful lines of inquiry for future research. It begins by embedding marketing in its global history enmeshed in various political economic and social sites. From this embedded perspective the book branches out to examine the rise of consumer culture theory among consumer researchers and parallel innovative developments in sociology and anthropology with scholarship analyzing the roles that identity social networks organizational dynamics institutions market devices materiality and cultural meanings play across a wide variety of applications including but not limited to brands and branding the sharing economy tastes and preferences credit and credit scoring consumer surveillance race and ethnicity status family life well being environmental sustainability social movements and social inequality. The volume is unique in the attention it gives to consumer research on inequality and the focus it has on consumer credit scores and consumer behaviors that shape life chances. The volume includes essays by many of the key researchers in the field some of whom have only recently if at all crossed the disciplinary lines that this volume has enabled. The contributors have tried to address several key questions: What motivates consumption and what does it mean to be a consumer? What social technical and cultural systems integrate and give character to contemporary consumption? What actors institutions and understandings organize and govern consumption? And what are the social uses and effects of consumption?

AWS Certified Cloud Practitioner Azhar ul Haque Sario, 2025-12-19 Unlock the future of cloud computing and master the 2026 landscape with the definitive guide to the AWS Certified Cloud Practitioner exam. This book provides a comprehensive roadmap for the CLF-C02 exam in the AI-native era of 2026. It covers the fundamental shift from simple server renting to intelligent Agentic AI workflows. You will learn about the latest hardware like Graviton4 processors and Trainium3 UltraServers. The text explains the new GreenOps standards for sustainability. It details the mechanics of Zero ETL integrations for seamless data analytics. You will understand the Shared Responsibility Model as it applies to Generative AI. The book breaks down modern security concepts like Post Quantum Cryptography. It explores the European Sovereign Cloud and global data residency laws. You will discover how Infrastructure from Code is replacing manual scripting. It covers FinOps strategies for managing cloud costs. The guide explains the Aurora Limitless database architecture. You will see how AWS Cloud WAN unifies global networks. It describes the use of Spot Instances for AI training. You will learn about S3 Express One Zone for high speed storage. The content uses short sentences for clarity. It includes hypothetical case studies like Omni Global Logistics. It explains the transition from CapEx to OpEx. You will understand the value of Digital Sovereignty. The book covers the AWS Well-Architected Framework for 2026. It details the new Unified Operations support model. It explains the role of Frontier Agents in development. You will learn about Identity First security perimeters. The guide is written in simple professional English. This book provides value where others fail by focusing on the why and how of the 2026 cloud ecosystem not just the what. While traditional guides focus on outdated infrastructure, this book immerses you in the AI Native reality where compute power is a revenue generator. It offers a competitive advantage by teaching you Unit Economics and Agentic Governance skills that are mandatory for the modern cloud architect. It moves beyond basic definitions to offer expert judgment on strategic trade offs such as choosing between AWS Fargate and Amazon EKS for AI workloads. It prepares you not just to pass an exam but to lead digital transformation in a world driven by autonomous agents and sustainable innovation.
