

How effective is art therapy for trauma recovery?

01

Art therapy offers multiple techniques for trauma recovery. Mandala creation, body mapping, expressive collage, digital art, and guided visualization are some effective methods.

02

Creating mandalas can increase calmness and focus in just 15-20 minutes. Body mapping helps trauma survivors reconnect with their physical selves and track progress over time.

03

Expressive collage allows for metaphorical expression of complex emotions. Digital art reduces anxiety about making mistakes and appeals to younger clients or those with physical limitations.
