## **Muhammad And The Origins Of Islam:**

**Muhammad and the Origins of Islam** F. E. Peters, 1994-04-06 An inquiry into the religious environment of the person Muslims hail as the Envoy of God and an attempt to trace his progress along the path from paganism to that distinctive form of monotheism called Islam

**Muhammad and the Believers** Fred M. Donner, 2010-09-01 The origins of Islam have been the subject of increasing controversy in recent years. The traditional view which presents Islam as a self consciously distinct religion tied to the life and revelations of the prophet Muhammad in western Arabia has since the 1970s been challenged by historians engaged in critical study of the Muslim sources. In Muhammad and the Believers the eminent historian Fred Donner offers a lucid and original vision of how Islam first evolved. He argues that the origins of Islam lie in what we may call the Believers movement begun by the prophet Muhammad a movement of religious reform emphasizing strict monotheism and righteous behavior in conformity with God's revealed law. The Believers movement thus included righteous Christians and Jews in its early years because like the Qur'anic Believers Christians and Jews were monotheists and agreed to live righteously in obedience to their revealed law. The conviction that Muslims constituted a separate religious community utterly distinct from Christians and Jews emerged a century later when the leaders of the Believers movement decided that only those who saw the Qur'an as the final revelation of the One God and Muhammad as the final prophet qualified as Believers. This separated them decisively from monotheists who adhered to the Gospels or Torah.

**Did Muhammad Exist?** Robert Spencer, 2021-07-13 Is there any sound historical evidence that the prophet of Islam actually existed or is the entire story of Muhammad fable or fiction? It is a question that few have thought or dared to ask. Virtually everyone Muslim and non Muslim alike takes for granted that the prophet of Islam lived as a prophet as well as a political and military leader in seventh century Arabia. But this widely accepted story begins to crumble on close examination. In his blockbuster New York Times bestseller *The Truth about Muhammad* historian and Islam expert Robert Spencer revealed the often shocking contents of Islamic teachings about Muhammad. Now in this newly revised and expanded version of *Did Muhammad Exist?* he lays bare those teachings surprisingly shaky historical foundations. This updated and enlarged version of this acclaimed book examines even more striking and compelling evidence that the story of Muhammad who for so long was assumed to have lived in the full light of history could be more myth and legend than historical fact. Spencer meticulously examines historical records and archaeological findings pioneering new scholarship to reconstruct what we can know about Muhammad the Qur'an and the early days of Islam. The evidence he presents challenges the most fundamental assumptions about Islam's origins.
