Cultural, Religious and Political Contestations Fethi Mansouri, 2015-05-06 This book examines the foundations of multiculturalism in the context of migr societies and from a multi dimensional perspective The work considers the politics of multiculturalism and focuses on how the discourse of cultural rights and intercultural relations in western societies can and should be accounted for at a philosophical as well as performative level Theoretical perspectives on current debates about cultural diversity religious minorities and minority rights emerge in this volume The book draws our attention to the polarised nature of contemporary multicultural debates through a well synthesised series of empirical case studies that are grounded in solid epistemological foundations and contributed by leading experts from around the world Readers will discover a fresh re examination of prominent multicultural settings such as Canada and Australia but also an emphasis on less examined case studies among multicultural societies as with New Zealand and Italy Authors engage critically and innovatively with the various ethical challenges and policy dilemmas surrounding the management of cultural and religious diversity in our contemporary societies Comparative perspectives and a focus on core questions related to multiculturalism not only at the level of practice but also from historical and philosophical perspectives tie these chapters from different disciplines together This work will appeal to a multi disciplinary audience including scholars of political philosophy sociology religious studies and those with an interest in migration culture and religion in contemporary societies *The Multicultural Challenge* Ingrid Aall, 2011 This book is designed to prepare students for the interactive and increasingly engaged global society It clearly defines concepts that are central to numerous contemporary issues all of which explain the difficulties arising from encounters with the unfamiliar The book acknowledges and addresses many central problems facing students as they navigate through rapidly changing environments that may be familiar to some and very unfamiliar to others Key concepts introduced and defined include culture shock future shock cultural relativity examples demonstrate how students can develop their cultural literacy by expanding their visual perception As an introductory guide this resource alternates between similarities and differences of known and lesser known cultures seen from the perspectives of the student A central theme throughout is the role that art plays as a mirror for our society Appendices provide a series of exercises and experiments that help students understand the material being presented and at the same time challenge them to conduct self evaluation Using visual literacy as a guide the book covers a variety of issues In the chapters issues such as immigration the impact of modern technology and the impact of postmodern art on contemporary ethics are explored and evaluated

Challenging Multiculturalism Raymond Taras, 2012-12-17 Tackles the challenge of dismantling the multicultural model without destroying diversity in European society Have Europeans become hostile to multiculturalism When people vote for anti immigration parties do they also support their anti multiculturalism policies And are right wing extremists becoming the storm troopers of the struggle against diversity In recent years European political leaders from Angela Merkel

to David Cameron have discarded the term multiculturalism and now express scepticism criticism and even hostility towards multicultural ways of organising their societies Yet they are unprepared to reverse the diversity existing in their states These contradictory choices have different political consequences in the countries examined in this book The future of European liberalism is being played out as multicultural notions of belonging inclusion tolerance and the national home are brought into question

Engaging Cultural Differences Richard A., Shweder, Martha Minow, Hazel Rose Markus, 2004-12-02 Liberal democracies are based on principles of inclusion and tolerance But how does the principle of tolerance work in practice in countries such as Germany France India South Africa and the United States where an increasingly wide range of cultural groups holds often contradictory beliefs about appropriate social and family life practices As these democracies expand to include peoples of vastly different cultural backgrounds the limits of tolerance are being tested as never before Engaging Cultural Differences explores how liberal democracies respond socially and legally to differences in the cultural and religious practices of their minority groups Building on such examples the contributors examine the role of tolerance in practical encounters between state officials and immigrants and between members of longstanding majority groups and increasing numbers of minority groups The volume also considers the theoretical implications of expanding the realm of tolerance Some contributors are reluctant to broaden the scope of tolerance while others insist that the notion of tolerance is itself potentially confining and demeaning and that modern nations should aspire to celebrate cultural differences Coming to terms with ethnic diversity and cultural differences has become a major public policy concern in contemporary liberal democracies as they struggle to adjust to burgeoning immigrant populations Engaging Cultural Differences provides a compelling examination of the challenges of multiculturalism and reveals a deep understanding of the challenges democracies face as they seek to accommodate their citizens diverse beliefs and practices

The Multicultural Challenge Grete Brochmann, 2003. These papers are derived from an international seminar that took place in 2001 in Rosendal, Norway. The Institute for Social Research in Oslo was interested in investigating the general power relations in a given society. Most of the papers reveal a distinct unease over the term 'multi cultural'.

The Multicultural Challenge in Israel Abraham Sagi, Avi Sagi, Ohad Nachtomy, 2009. In the last three decades, Israel has been undergoing a dramatic revolution: the hegemonic secular Zionist ethos that founded it is cracking, and various sub-groups seek to realize their specific identity in the public sphere. This text is one of the first attempts to examine various aspects of the current multicultural transformation of Israeli society.

Challenges of Multicultural Education Norah Peters-Davis, Jeffrey Shultz, 2015-12-03. The voices of college students and teachers vividly enlighten readers about the real-world challenges of multicultural education. Courses on diversity abound in American universities today. But open classroom discussion of racial and gender differences can evoke discomfort as much as new understandings. Negotiating these courses takes a toll on both faculty and students as classrooms become filled with emotion. Based on student and teacher experience in a range of American colleges and universities, this book shows how to meet these challenges and create a truly open and beneficial environment. The authors demonstrate pedagogical strategies and new approaches. A vital resource for teachers, students, college administrators, and university libraries.

Contents: Introduction, Dialogue on Diversity, Teaching From Silence and Resistance, Tongues Untied, The Racial Experiment, Starting with a Story and Sharing the Discussion, Leading, Irritating, Supporting, Representing, Identity Matters in Class, What Lies Beneath, Conclusion.

Multicultural Counseling and Psychotherapy Leroy G. Baruth, M. Lee Manning, 1999. Written to explore the lives and potential counseling problems of African American, Asian American, European American, Hispanic American, and Native American populations, this text considers the powerful influences of a client's developmental stage and cultural background. It maintains that integrating multicultural and lifespan considerations is crucial to counseling effectiveness.
