Multilingualism In Europe A Case Study:

Multilingualism in Europe Madariaga European Foundation, 2003 The important question of how to bring the European Union closer to its citizens is bound up with the issue of how individuals groups and nation states express and assert identity with one of the fundamental challenges how to approach and deal with multilingual communication This study assesses language use in a multilingual trans European speech community It examines language learning at school university and elsewhere languages spoken at home and in the workplace and speakers attitudes towards language learning and future linguistic solutions in Europe The speech community selected for the case study are graduates of the College of Europe a postgraduate institution of European Studies Amongst other questions this publication asks why these particular speakers are multilingual and whether a two tier Europe is developing in terms of foreign language skills Using the case study as a point of departure for further discussion the author explores how a balance may be achieved between managing effective communication between speakers whilst maintaining the right of the individuals to use their own mother tongue

Multilingual Europe Guus Extra, Durk Gorter, 2008-12-10 This book offers an inclusive perspective on the constellation of languages in Europe by taking into account official state languages regional minority languages and immigrant minority languages Although celebrating linguistic diversity is one of the key propositions in the European discourse on multilingualism and language policies this device holds for these three types of languages in a decreasing order All three types of languages however are constituent parts of a multilingual European identity and should be taken into account in any type of language policy Both facts and policies on multilingualism and plurilingual education are addressed in case studies at the national and European level The selection of case studies is based on a careful weighing of geographical spread of countries and languages across Europe on the one hand and availability of established expert knowledge on the other After

an Introduction to the theme of the book Guus Extra and Durk Gorter Part I deals with official state languages with a focus on the spread of English as lingua franca across Europe Juliane House on French and France Dennis Ager on Polish in Poland and abroad Justyna Lesniew ka and on language constellations in the Baltic States Gabrielle Hogan Brun Part II deals with regional minority languages with a focus on Catalan in Spain Francesc Xavier Vila i Moreno Frisian in the Netherlands Durk Gorter et al Hungarian as a minority language in Central Europe Susan Gal and Saami in the Nordic countries Mikael Svonni Part III deals with immigrant minority languages in the United Kingdom Viv Edwards Sweden Lilian Nygren Junkin Italy Monica Barni and Carla Bagna and Europe at large Guus Extra and Kutlay Ya mur **Multilingual Europe, Multilingual Europeans**, 2015-06-29

Multilingualism is a crucial if often unrecognized marker of new European identities In this collection of essays we observe how a plurilinguist and pluricultural political entity practices and theorizes multilingualism We ask which types of multilingualism are defined encouraged or discouraged at the level of official policies but also at the level of communities We look at speakers of hegemonic or minority languages at travellers and long term migrants or their children and analyse how their conversations are represented in official documents visual art cinema literature and popular culture The volume is divided into two parts that focus respectively on Multilingual Europe and Multilingual Europeans The first series of chapters explore the extent to which multilingualism is treated as both a challenge and an asset by the European Union examine which factors contribute to the proliferation of languages globalisation the enlargement of the European Union and EU language policies The second part of the volume concentrates on the ways in which cultural productions represent the linguistic practices of Europeans in a way that emphasizes the impossibility to separate language from culture nationality but also class ethnicity or gender The chapters suggest that each form of plurilingualism needs to be carefully analysed rather than celebrated or condemned Urban Multilingualism in Europe Guus Extra, Kutlay

Yağmur, 2004 This book focuses on the increase of urban multilingualism in Europe as a consequence of processes of migration and minorisation It offers multidisciplinary crossnational and crosslinguistic perspectives on immigrant minority languages at home and in school in six multicultural cities across Europe In each of these cities Germanic or Romance languages have a dominant status in public life This Multilingual Cities Project is based on large scale empirical findings and has been carried out under the auspices of the European Cultural Foundation in Amsterdam Part I offers multidisciplinary background information on phenomenological demographic language rights and educational aspects of the status of immigrant minority communities and their languages in a variety of international contexts Part II offers methodological considerations on the Multilingual Cities Project In addition it presents both national and local perspectives on multilingualism in each of the six cities under consideration Each chapter provides information on the distribution and vitality of immigrant minority languages spoken at home and on the status of these languages in primary and secondary schools Part III offers crossnational and crosslinguistic perspectives on the twenty most prominent languages that emerge

from the study The focus is again on the two major private and public domains in which language transmission may or may not occur the home and the school respectively The book offers a challenging outlook on the educational management of language diversity in the increasingly multicultural and multilingual context of European nation states **Multilingual Europe** Heather Merle Benbow, Jane Warren, 2009-05-27 As Europe continues to expand and integrate through the European Union it faces the challenge of ever increasing multilingual and multicultural contact within and across its borders This volume presents recent research on European language policy language contact and multiculturalism that explores how Europe is meeting this challenge Inspired by intersections and conflicts in language and cultural identity in Europe the volume transcends disciplinary boundaries by enhancing sociolinguistic research with chapters on cultural identity and language in contemporary European cinema The book considers the relationships between language and cultural identity in Europe at a time of increasing multicultural complexity with contributions on Belgium France Germany Italy the Netherlands Spain Sweden and Ukraine and the linguistic and imaginative spaces between and beyond The volume highlights the ongoing significance of language and identity for an expanding Europe and the ways in which situations of linguistic hybridity interlocution and language contact continue to define Europe and its others **The Routledge Handbook of Multilingualism** Marilyn Martin-Jones, Adrian Blackledge, Angela Creese, 2012 The Routledge Handbook of Multilingualism provides a comprehensive survey of the field of multilingualism for a global readership and an overview of the research which situates multilingualism in its social cultural and political context The handbook includes an introduction and five sections with thirty two chapters by leading international contributors The introduction charts the changing landscape of social and ethnographic research on multilingualism theory methods and research sites and it foregrounds key contemporary debates Chapters are structured around sub headings such as early developments key issues related to theory and method new research directions This handbook offers an authoritative guide to shifts over time in thinking about multilingualism as well as providing an overview of the range of contemporary themes debates and research sites The Routledge Handbook of Multilingualism is the ideal resource for postgraduate students of multilingualism as well as those studying education and anthropology *Multilingualism in a Multicultural Context* Guus Extra, 1998 From a historical and cultural point of view South Africa and Western Europe have much in common The sociolinguistic commonalities are clearly evident in the status and use of English and Afrikaans both of which have their roots in an intricate European migration history This volume aims at capturing new facts about multilingualism in these two multicultural contexts by means of case studies on dominant and dominated languages in two regions in particular i e KwaZulu Natal in South Africa and the Netherlands in Western Europe Through the exploration of local realities offered in this volume the similarities and differences between the two geopolitical contexts become abundantly clear This should lay the foundation for the comparative work that is eventually envisaged
