**Muffled Echoes** G. K. Parks, 2017-02-14 Waking up alone scared and hurt with no recollection of the last twelve hours could be a sick joke but this is far worse than some twisted prank Federal agent Alexis Parker can't remember where she was or how she ended up unconscious outside a parking garage The evidence found on her body is inconclusive Was it an accident or did she pass out drunk after a night of partying The briefest flashes from her memory and the sudden uneasiness when in close proximity to others are the only indications that something sinister is brewing but her colleagues won't listen Just as Alex starts to doubt her conviction that this wasn't an accident she experiences an intensely vivid dream Maybe there's a reason she can't remember those twelve hours Maybe she needs to forget what happened Afraid of what she knows and even more terrified of what she doesn't Alex embarks on a quest to uncover the truth behind those missing hours and may the consequences be damned Retracing her steps Alex becomes embroiled in the most dangerous investigation of her career The stakes have never been this high or the fear this overwhelming While she struggles to carry out her duties and uphold the oath she took when she joined the Office of International Operations she can't deny that taking the easy way out has never held more appeal especially when failure certainly means death The tenth installment of the series revitalizes the very essence of Alexis Parker and demonstrates precisely what makes her tick promising plenty of action suspense and intrigue along the way *Reagan and the Iran-Contra Affair* Robert Busby, 2016-07-27 The Iran Contra scandal rocked the Reagan presidency to its core in late 1986 and 1987 This text examines the efforts of the Reagan administration to recover its public credibility in the 12 months following the exposure of controversial covert operations Via comparative analysis it explores the impact of scandal upon the presidential office the problems which confronted President Reagan during Iran Contra and the centrality of damage control efforts to the well being of the modern presidency **Harper's New Monthly Magazine**, 1876

*Covert Capital* Andrew Friedman, 2013-08-02 The capital of the U.S. Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U.S. imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U.S. imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U.S. expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U.S. foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D.C. Friedman tells the story of a place that recasts ideas about U.S. immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American

suburbs and U S foreign policy Covert Capital will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales American Crossroads
