Female Sex June Edith Hahner, 1990 June E Hahner's pioneering work *Emancipating the Female Sex* offers the first comprehensive history of the struggle for women's rights in Brazil. Based on previously undiscovered primary sources and fifteen years of research, Hahner's study provides long overdue recognition of the place of women in Latin American history. Hahner traces the history of Brazilian women's fight for emancipation from its earliest manifestations in the mid nineteenth century to the successful conclusion of the suffrage campaign in the 1930s. Drawing on interviews with surviving Brazilian suffragists and contemporary feminists as well as manuscripts and printed documents, Hahner explores the strategies and ideological positions of Brazilian feminists. In focusing on urban upper and middle class women from whose ranks the leadership for change arose, she examines the relationship between feminism and social change in Brazil's complex and highly stratified society.

Work and Health, 1997 *Women, Gender and Conditional Cash Transfers* Teresa Sacchet, Silvana Mariano, Cássia Maria Carloto, 2020-09-01 Conditional Cash Transfer Programs have been widely used throughout less developed countries to fight poverty and foster socioeconomic development. In *Women, Gender and Conditional Cash Transfers*, a multidisciplinary group of feminist scholars use survey data, analysis in depth interviews and ethnographic and archival research to explore the extent to which Bolsa Família in Brazil contributes to women's autonomy and improves gender relations. Comprised of nine chapters written by authors from different regions of Brazil, this book captures perspectives from across Brazil to explain these regional social inequalities and provide historical and up to date insights of this program from a feminist perspective. The authors are able to move beyond conventional feminist knowledge on CCTs, women and gender relations through considering questions of gender raised in the specialized literature related to Bolsa Família and by addressing concerns of intersectional categories such as race, ethnicity, age and geographic location. *Women, Gender and Conditional Cash Transfers* will be of great interest not only to scholars of Latin American politics but also to students of development policy, public policy and gender.
