## **Multiple Modernities:**

**Multiple Modernities** Shmuel Noah Eisenstadt, 2002 How may we characterize contemporary society in a world so complex? Can looking at the diverse paths followed by various cultures in the modern world generate useful new social scientific typologies or must a different set of questions be posed in this era of globalization? What in short is the nature of modernity? These are some of the questions addressed by the contributors to *Multiple Modernities*. Following the theme in an earlier work edited by Shmuel Eisenstadt, *Public Spheres and Collective Identities*, this book challenges conventional notions of how the world has changed politically, socially and economically. The authors consider the meaning of modernity in contexts as different as communist Russia, modern India, the Muslim world, Latin America, China and East Asia and the United States. Miscegenation, transnational migration, technological developments and changing communications have shifted the ground on which theories of society were once built. Authors and chapters include: S. N. Eisenstadt, *Multiple Modernities*; Björn Wittrock, *Modernity: One, None or Many: European Origins and Modernity as a Global Condition*; Johann P. Arnason, *Communism and Modernity*; Nilfer Gle, *Snapshots of Islamic Modernities*; Dale F. Eickelman, *Islam and the Languages of Modernity*; Sudipta Kaviraj, *Modernity and Politics in India*; Stanley J. Tambiah, *Transnational Movements, Diaspora and Multiple Modernities*; Tu Weiming, *Implications of the Rise of Confucian East Asia*; Jürgen Heideking, *The Pattern of American Modernity from the Revolution to the Civil War*; and Renato Ortiz, *From Incomplete Modernity to World Modernity*. Written in clear and non-technical language for both a scholarly and general audience, this volume confronts the problem of just what constitutes the common core of modernity. Shmuel N. Eisenstadt is Rose Issacs Professor Emeritus of Sociology at The Hebrew University of Jerusalem. He is the author of *The Political Systems of Empires* and co-editor of *Public Spheres and Collective Identities*, available from Transaction.

**Reflections on Multiple Modernities** Dominic Sachsenmaier, S. Shmuel Noah Eisenstadt, Jens Riedel, 2002-01-01 *Multiple Modernities* is a departure from the classic sociological homogenization theories. The edition presents an interdisciplinary discussion of the topic in sociological, historical and economic dimensions. It explores culturally specific forms of modernity with a focus on China and Europe.

Aizenshtadt,2003 **Multiple Modernities and Postsecular Societies** Dr Kristina Stoeckl,Prof Dr Massimo

Rosati,2013-01-28 Engaging with the idea that the world reveals not one but many routes to modernity this volume explores the role of religion in the emergence of multiple forms of modernity which evolve according to specific cultural conditions and interpretations of the modern project It draws upon case study material from Africa The Middle East Russia and South America to examine the question of whether modernity democracy and secularism are universalistic concepts or are on the contrary unique to Western civilization whilst considering the relationship of postsecularism to the varied paths of modern development Drawing together work from leading social theorists this critical theoretical contribution to current debates will appeal to sociologists social theorists and political scientists with interests in religion secularization and postsecularization theory and transitions to modernity in the contemporary globalized world

**Comparative Civilizations and Multiple Modernities** Shmuel N. Eisenstadt,2022-11-07 This collection of essays provides an analysis of the dynamics of Civilizations The processes of globalization and of world history are described from a comparative sociological point of view in a Weberian tradition These essays were written between 1974 and 2002 by one of the most eminent sociologists of today The print edition is available as a set of two volumes 9789004129931

**Varieties of Multiple Modernities** ,2015-11-24 To date the nascent consequential notion of multiple modernities has been predominately grounded in historical research with the purpose of validating the theory Yet the notion of multiple modernities represents a radical transformation in the way modernity and indeed the contemporary world is viewed As such the central aim of this volume is to explore the implications and hidden understanding of the multiple modernities research project beyond historical analysis in order to investigate its wide ranging omnipresent implications as they exist in communication and in the social order of societal membership in contemporary societies This volume collects new research about multiple modernities and globalization It shows the new turn of sociological theory in the contemporary scene with respect to multiple modernities multi centrism transglobality hybridization and multiculturalism and explores it as a new area of societal communication one that takes effect in the

sectors of a global society as a society of societies The studies in this book converge to demonstrate that the route of Western modernization its cultural program and its institutional structure does not follow the pathway of modernization that we have thus far observed in the emerged new area Rather the continuation of the multiple modernities research program is given a new design researching the social structure and dynamic of postmodern societies their exchange and the debate about the flow of free resources But the studies are also evidence that the sociological theory has no normative foundation Contributors are Mehdi P Amineh Barrie Axford Eliezer Ben Rafael Shmuel N Eisenstadt Mark Jarzombek Werner Krawietz Judit Bokser Liwerant Manussos Marangudakis Jan Nederveen Pieterse Gerhard Preyer Roland Robertson Luis Roniger Yitzhak Sternberg and Michael Sussman **Multiple Modernities Or Varieties of Modernity?** Volker H. Schmidt,2004 *Reflections on Multiple Modernities* Dominic Sachsenmaier,Jens Riedel,Shmuel N. Eisenstadt,2002-10-01 This volume explores a rapidly emerging paradigm in the social sciences which assumes culturally specific forms of modernity Modernization is thus no longer equated with homogenization Leading scholars from history sociology area studies and economics discuss the concept's implications The first part covers a range of theoretical questions arising from the new approach Issues such as the common features of all modernities and their interrelation with regional particularities the reasons for antinomies of modernity and the preconditions for a peaceful coexistence of cultures are raised The second and third parts deal with Europe and China as two specific encounters with modernity the tensions between universalism and cultural identities both in past and present The fourth part analyzes how Multiple Modernities translates into formal and informal institutions of diverse capitalisms Authors include well known specialists Mark Juergensmeyer Hartmut Kaelble Bruce Mazlish and Frederic Wakeman **Multiple Modernities and Good Governance** Thomas Meyer,José Luís de Sales Marques,2018-05-11 This book represents the first discussion from a political science perspective of the concept of Multiple Modernities in three dimensions First taking stock of the discussions of the concept itself the book then connects the concept to more recently developed analytical and normative concepts that concretize it before finally opening up a discussion about its implications and consequences for the political dimension Written by outstanding scholars in the field the book addresses four principal concepts Good Society Good Governance Human Security and Varieties of Capitalism It determines whether and to what degree these concepts enable us to discover the commonalities and differences that distinguish the emerging multiple modernities in our time with respect to their political implications and consequences This text will be of key interest to scholars and students of political theory political economy international relations comparative politics and sociology

**Globality and Multiple Modernities** Luis Roniger,Carlos Horacio Waisman,2002 This book analyzes the Americas North and South in the global and comparative arena showing how these societies gazed each other and Europe as they followed the road to multiple forms of modernity and globalization New insights are contributed on the ways in which reflected conceptions of modernity with utopian overtones influenced the ways in which politicians and intellectuals viewed their own

societies other societies in the New World and the older nations of Europe      **Multiple Modernities** ,2000

**Comparative Civilizations and Multiple Modernities** Shmuel N. Eisenstadt,2022-11-07 This collection of essays provides an analysis of the dynamics of Civilizations The processes of globalization and of world history are described from a comparative sociological point of view in a Weberian tradition These essays were written between 1974 and 2002 by one of the most eminent sociologists of today The print edition is available as a set of two volumes 9789004129931      *Habermas and Giddens on Praxis and Modernity* Craig Browne,2017-01-02 In *Habermas and Giddens on Praxis and Modernity* Craig Browne investigates how two of the most important and influential contemporary social theorists have sought to develop the modernist visions of the constitution of society through the autonomous actions of subjects Comparing Habermas's and Giddens's conceptions of the constitution of society interpretations of the social structural impediments to subjects autonomy and attempts to delineate potentials for progressive social change within contemporary society Browne draws on his own work which has extended aspects of the social theorists approach to modernity Despite the criticisms developed over the course of the book Habermas and Giddens are found to be two of the most important theorists of democratization and social democracy the dynamics of capitalist modernity and their paradoxes social practices and reflexivity and the foundations of social theory in the problem of the relationship of social action and social structure

[From Intercivilizational Encounters to Intercivilizational Analysis](#) Ino Rossi,2025-10-01 This volume contributes to Roland Robertson's 1938-2022 thinking on the impact of civilizational traditions on contemporary global relations It also includes chapters by Robertsonian scholars on the social implications of intercivilizational encounters Through theoretical discussions and ethnographic documentation the volume highlights the importance of human needs and aspirations at the center of civilizational analyses It offers an original methodology to formulate intercivilizational principles of moral order and a related intercivilizational imaginary Readers will find in this volume a much needed strategy to transform contemporary civilizational conflicts and manipulations into intercivilizational undertakings in reciprocal understanding learning and cooperation This volume includes contributions from noted globalization scholars and is a must read for those interested in macro perspectives on globalization and global processes

Edited by Massimo Rosati and Kristina Stoeckl* Kristina Stoeckl,2016-11-15 Engaging with the idea that the world reveals not one but many routes to modernity this volume explores the role of religion in the emergence of multiple forms of modernity which evolve according to specific cultural conditions and interpretations of the modern project It draws upon case study material from Africa The Middle East Russia and South America to examine the question of whether modernity democracy and secularism are universalistic concepts or are on the contrary unique to Western civilization whilst considering the relationship of postsecularism to the varied paths of modern development Drawing together work from leading social theorists this critical theoretical contribution to current debates will appeal to sociologists social theorists and political scientists with interests in religion secularization and postsecularization

theory and transitions to modernity in the contemporary globalized world *The Axial Age and Its Consequences* Robert N. Bellah, Hans Joas, 2012-10-31 This book makes the bold claim that intellectual sophistication was born worldwide during the middle centuries of the first millennium bce From Axial Age thinkers we inherited a sense of the world as a place not just to experience but to investigate envision and alter A variety of utopian visions emerged and led to both reform and repression

**The Great Revolutions and the Civilizations of Modernity** Shmuel N. Eisenstadt, 2006-02-01 This book is the analysis of the civilizational and historical context of the development of the Great Modern Revolutions their relations to modernity to the civilization of modernity and to the development of multiple modernities and the fate of revolutionary symbolism and dynamics in modern regimes in the continually changing civilization of modernity its dynamics and tribulations

**Nationalism and Multiple Modernities** Atsuko Ichijo, 2013-08-23 This book is the first to apply the theory of multiple modernities to the study of nationalism examining the modernity of nationalism through three major case studies Anglo British Finnish and Japanese Multiple Modernities Gunnar Skirbekk, 2011 Multiple Modernities approaches the concept of modernity through two historical phases of Norway The first study focuses on the interplay between Lutheran state officials and popular movements in the nineteenth century as an essential aspect of the growth of social democracy The second examination of modernization centers on twentieth century Norway up to World War II The book is balanced between theoretical remarks on conceptual issues through the eyes of a trained philosopher rather than historian an assessment of modernization processes and a study of basic epistemic and structural challenges that confront us in our time Scandinavian countries are often noted as cases of successful modernization processes However these references to a Scandinavian model tend to focus on the mid twentieth century after World War II In Skirbekk's view the uniqueness of modernization processes in Scandinavia for instance in Norway is better conceived by focusing on the nineteenth century with a continuation into the twentieth century
