*How to Be a Good Leader* Terry Cochran,2014-11-13 As the human race has evolved it has been socially dependent on certain members deemed leaders of the group These particular people always possess characteristics that a group of people could rally around in order to reach their goals Even in the animal kingdom wild animals will gather around a dominant animal to lead them For example a pride of lions has one king lion that leads the pack and ensures every lion is properly fed and protected Because the male lion will fight to the death for the top spot this ensures the king is the strongest and therefore the most able to protect and hunt food for his pride or group Of course in today s civilized world we don t exactly have to fight to the death to lead a group of people But in a manner of speaking any potential leader does have to fight or compete to obtain a leadership position Instead of proving strength and power the candidate will have to display how and why they re the most suitable for the position Instead of physically lunging at an opponent the candidate will constantly have to demonstrate professional motivational and social skills a cut above the rest This book will help you to develop all the attributes that define a great leader and will help you discover how to use those qualities to bring your career and personal life to new heights

put into action at work to start building yourself up as a leader and a top candidate for the next available promotion opportunity In other words trying to become a leader and starting your management career using the standard books of leadership and management theory out there is pretty much like studying the building process of Burj Khalifa the world s tallest building when you are planning to build a garden shed behind your house You will waste your time and get completely overwhelmed trying to learn about the intricacies of building with high density steel at 800 meters above the ground when you would in reality need only to learn how to plan a basic wooden shed with a saw and a hammer This book is designed to be something different We will start with the garden shed and make sure you get it right Most importantly we will make sure you get started in the first place But don t worry doing this will also set you on the right path to think about building skyscrapers someday if you wish to That said the one single goal of this book is to show you how to become a leader in your current job and then quickly accelerate your career advancement towards management positions equipped with a solid plan and all the essential insights that will not only make your success possible but inevitable
