Minimal Art:

Minimal Art Daniel Marzona, 2004 The bare minimum Often regarded as a backlash against abstract expressionism Minimalism was characterized by simplified stripped down forms and materials used to express ideas in a direct and impersonal manner By presenting artworks as simple objects minimalist artists sought to communicate esthetic ideals without reference to expressive or historical themes This critical movement which began in the 1960s and branched out into land art performance art and conceptual art is still a major influence today This book explains the how why where and when of Minimal Art and the artists who helped define it Featured artists Carl Andre Stephen Antonakos Jo Baer Larry Bell Ronald Bladen Walter De Maria Dan Flavin Robert Grosvenor Eva Hesse Donald Judd Gary Kuehn Sol LeWitt Robert Mangold John McCracken Robert Morris Robert Ryman Fred Sandback Richard Serra Tony Smith Frank Stella Robert Smithson Anne Truitt About the Series Each book in TASCHEN's Basic Genre Series features a detailed illustrated introduction plus a timeline of the most important political cultural and social events that took place during that period a selection of the most important works of the epoch each of which is presented on a 2 page spread with a full page image and with an interpretation of the respective work plus a portrait and brief biography of the artist approximately 100 colour illustrations with explanatory captions Minimal Art Gregory Battcock, 1995-08-03 This is a collection of writings by and about the work of the 1960s minimalists illustrated with photographs of paintings sculptures and performance **Minimal Art and Artists in the 1960s and After** Laura Garrard, 2007 All the main practitioners and theoreticians of the still influential 1960s Minimal art are studied here including Frank Stella Robert Ryman Dan Flavin and Eva Hesse Chapters include Minimal aesthetics Minimal painting and painters and Minimal art and land artists Minimal Art Gregory Battcock, 1995-08-03 This is a collection of writings by and about the work of the 1960s minimalists illustrated with photographs of paintings sculptures and performance Minimal Art Daniel Marzona, 2009 *Minimal Architecture* Ilka Ruby, Andreas Ruby, Angeli Sachs, Philip Ursprung, 2003 What is minimalism Or more specifically what isn't In this fascinating aesthetic voyage three experts in the field of architecture and art history trace the development of minimalism as a style and offer perspectives on the directions the movement is taking as it morphs towards the future In double page spreads filled with color photographs of the most innovative minimalist projects this book illustrates three principal movements the traditional as practiced by Herzog the ambiguous in which architects not commonly associated with minimalism such as OMA or Zaha Hadid use it for specific projects and the subversive which appropriates minimalist concepts across a variety of new fields as exemplified in the architecture of Shigeru Ban or Lacaton Vassal *Minimal Art and Artists in the 1960s and After* Laura Garrard, 2012-04-01 MINIMAL ART AND ARTISTS This book is concerned with Minimal art and artists particularly painters sculptors 3 D installation and land artists All of the key practitioners and theoreticians of the still influential 1960s Minimal art movement and style are studied here Donald Judd Robert Morris Carl Andre Frank Stella Robert Ryman Robert Smithson

Minimalism James Meyer, 2005-03-02 This beautifully illustrated book is internationally recognized as the most definitive survey of Minimalism among the most influential movements in late twentieth century art

Minimalism James Meyer, James Sampson Meyer, 2004-01-01 Critic and art historian Meyer a leading authority on Minimalism examines the style from its inception to its broader cultural influence This sourcebook features an excellent selection of nearly 300 color and b w images to illustrate the surprising variety of the work *Minimal Art in Australia*, 1987

Minimalism Kenneth Baker, 1988 The effects and influence of minimalism the art movement in which artists removed personal expression and decorative detail from their work continue to be felt today as art produced by its proponents continues to be exhibited and artists continue to use the style The great movements of modern art among them Impressionism Surrealism Cubism and Abstract Expressionism have challenged rather than accommodated critics and public None more so than Minimalism which unrelentingly questioned not only the nature of art but also the place of art in society especially the capitalist society of the United States Beginning in the 1960s artists like Frank Stella Donald Judd Carl Andre Dan Flavin Sol LeWitt Robert Morris Robert Smithson Walter De Maria Richard Serra Keith Sonnier Eva Hesse Robert Grosvenor and Joel Shapiro reacted against what they saw as the flamboyance of Abstract Expressionism seeking instead materials forms and procedures that explicitly do not convey the personal touch of the fabricator Many observers have judged the artworks that resulted obstinately cerebral and unapproachable or worse barren beyond the point of tedium

Others have recognized that these works are in fact revolutionary embodying an elemental immediacy unprecedented in Western art. Giving no quarter to complacent illusion and habits of perception, the Minimalists pushed aesthetic thought deeply into the crust of unexamined ideas that most of us take for granted as cultural terra firma. In this volume, illustrated with works ranging from small scale sculpture and hermetic paintings to vast earthworks, Kenneth Baker, the award winning art critic of the San Francisco Chronicle, explores the history and challenge of Minimalism in the context not only of the trends it succeeded but of those that have succeeded it. *Minimalism: Art of Circumstance* is one of those rare essays of critical insight that combine a comprehensive point of view with a revisionist spirit for in unfolding the history of his subject, Baker finally challenges the very notion of a minimalist movement. The result is provocative and in today's wildly pluralistic post modern art world, this volume is living history in fact required reading. Art critic for the San Francisco Chronicle, Kenneth Baker publishes in all the major journals including *Art in America*, *Artforum*, *Architectural Digest*, *Connoisseur*, *The Atlantic*, *The New York Times* and many others. He has received the Manufacturers Hanover Trust Art World Award for Distinguished Newspaper Art Criticism, 1985, and his Minimalism studies have been supported by the Dia Foundation. Baker has taught at Brown University, Rhode Island School of Design and Boston College. 128 illustrations. Allan Kaprow, Robert Smithson, and the Limits to Art, Philip Ursprung, Fiona Elliott, 2013-05-10. This innovative study of two of the most important artists of the twentieth century links the art practices of Allan Kaprow and Robert Smithson in their attempts to test the limits of art, both what it is and where it is. Ursprung provides a sophisticated yet accessible analysis, placing the two artists firmly in the art world of the 1960s as well as in the art historical discourse of the following decades. Although their practices were quite different, they both extended the studio and gallery into desert landscapes, abandoned warehouses, industrial sites, train stations and other spaces. Ursprung bolsters his argument with substantial archival research and sociological and economic models of expansion and limits. *Minimalism: Origins*, Edward Strickland, 2000-09-22. The term Minimalism appeared in the mid 1960s, primarily with reference to the stripped down sculpture of artists like Donald Judd. This volume investigates the origins of Minimalism in post war American culture. The author redefines it as a movement that developed reductive stylistic innovations. **Minimalism**, Hartmut Obendorf, 2009-06-12. The notion of Minimalism is proposed as a theoretical tool supporting a more differentiated understanding of reduction and thus forms a standpoint that allows definition of aspects of simplicity. Possible uses of the notion of minimalism in the field of human computer interaction design are examined both from a theoretical and empirical viewpoint, giving a range of results. Minimalism defines a radical and potentially useful perspective for design analysis. The empirical examples show that it has also proven to be a useful tool for generating and modifying concrete design techniques. Divided into four parts, this book traces the development of minimalism, defines the four types of minimalism in interaction design, looks at how to apply it and finishes with some conclusions. Hot Art, Cold War - Western and Northern European Writing on American Art 1945-1990, Claudia Hopkins, Iain Boyd Whyte, 2020-09-17.

Hot Art Cold War Northern and Western European Writing on American Art 1945 1990 is one of two text anthologies that trace the reception of American art in Europe during the Cold War era through primary sources. With the exception of those originally published in English, the majority of these texts are translated into English for the first time from eight languages and are introduced by scholarly essays. They offer a representative selection of the diverse responses to American art in Great Britain, Ireland, France, Belgium, the Netherlands, West Germany, FRG, Austria, Switzerland, Denmark, Norway, Sweden, and Finland. There was no single European discourse as attitudes to American art were determined by a wide range of ideological, political, social, cultural, and artistic positions that varied considerably across the European nations. This volume and its companion, Hot Art Cold War Southern and Eastern European Writing on American Art 1945 1990, offer the reader a unique opportunity to compare how European art writers introduced and explained contemporary American art to their many and varied audiences. Whilst many are fluent in one or two foreign languages, few are able to read all twenty-five languages represented in the two volumes. These ground-breaking publications significantly enrich the fields of American art studies and European art criticism. This book, together with its companion volume, Hot Art Cold War Southern and Eastern European Writing on American Art 1945 1990, is a joint initiative of the Terra Foundation for American Art and the editors of the journal *Art in Translation* at the University of Edinburgh. The journal, launched in 2009, publishes English language translations of the most significant texts on art and visual cultures, presently only available only in their source language. It is committed to widening the perspectives of art history, making it more pluralist in terms of its authors' viewpoints and subject matter.

absence of clutter Paul Stephens, 2020-03-24. An exploration of minimal writing texts, generally shorter than a sentence, as complex, powerful literary and visual works. In the 1960s and 70s, minimal and conceptual artists stripped language down to its most basic components: the word and the letter. Barbara Kruger, Jenny Holzer, Carl Andre, Lawrence Weiner, and others built lucrative careers from text-based art. Meanwhile, poets and writers created works of minimal writing, visual texts generally shorter than a sentence. One poem by Aram Saroyan reads in its entirety: *eyeye*. In *Absence of Clutter*, Paul Stephens offers the first comprehensive account of minimal writing, arguing that it is equal in complexity and power to better-known, more commercial text-based art. Minimal writing, Stephens writes, can be beguilingly simple on the surface but can also offer iterative reading experiences on multiple levels, from the fleeting to the ponderous. *Absence of Clutter* for example, the entire text of a poem by Robert Grenier is both expressive and self-descriptive. Stephens first sets out a theoretical framework for reading and viewing minimal writing and then offers close readings of works of minimal writing by Saroyan, Grenier, Norman Pritchard, Natalie Czech, and others. He reverse-engineers recent works by Jen Bervin, Craig Dworkin, and Christian B. K. that draw on molecular biology and explores print-on-demand books by Holly Melgard, code poetry by Nick Montfort, Twitter-based work by Allison Parrish, and the use of Instagram by Hans Ulrich Obrist and Saroyan. Text, it seems, is becoming ever more prevalent in visual art, meanwhile poems are getting shorter. When reading has become
