Minorities Today:

Seeking justice and an end to neglect: Iran's minorities today Nazila Ghanea-Hercock, Binesh Hass, 2011 Violations of minority rights in Iran take place within a wider well documented context of human rights violations and intolerance of dissent and difference Against this background this briefing reflects on the historical and current situation of Iran's ethnic religious and linguistic minority groups which are typified in Iran by their lack of political power and influence It also considers the new popular and political consciousness that is emerging in Iran in regard to human rights in general and minority rights in particular following the political debates leading up to the disputed 2009 elections and the popular protests that came afterwards This shift may represent an opportunity for members of minority groups in Iran at long last to enjoy equal citizenship rights educational and economic opportunities and the right to maintain their cultural identity Publisher's description

Adolescent Psychology in Today's World Michael J. Nakkula, Andrew J. Schneider-Muñoz, 2018-11-02 This groundbreaking three volume set spotlights how conditions around the world are affecting the healthy development of adolescents in their respective environments on all six continents Continually unstable or perpetually poor economic conditions globalization and rapid technological change are just three of the forces affecting a group of 1.2 billion strong today a demographic poised to become our world leaders and catalysts in the not too distant future the world's adolescents Led by two editors who have been dedicated to studying adolescent development worldwide for decades this novel collection of works from contributors in more than 40 countries emphasizes how possibilities for healthy mental and physical development are affected by the difficulties youths face in their countries and how these challenges have shaped and are shaping contemporary teenage life today The set comprehensively addresses issues for adolescents across the globe such as the day to day challenges of poverty inadequate education violence or war disease reproductive matters globalization and technological challenges and more while also providing a strengths based focus in the volumes showing how and why some teenagers in each country have surmounted the challenges and forged stronger characters to better their worlds These stories document more than personal victories and their experiences matter far more than the adolescents themselves In its State of the World's Children 2011 report UNICEF noted that the world community needs to turn its

attention to adolescents in need explaining that focusing on this large and potentially powerful group makes economic sense as well as being a necessary step in working towards achieving human justice By addressing the risks challenges and strengths of teenagers as a group in countries worldwide this work serves to break the cycle of poverty violence discrimination and death for adolescents
