Miracles Ronald H. Isaacs, 1997 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com *The Old Testament Miracle-workers in Early Judaism* Erkki Koskenniemi, 2005 Erkki Koskenniemi analyzes the most important early Jewish texts which attribute miracles to people mentioned in the Old Testament His study is relevant for everyone investigating the miracles in early Judaism or early Christianity **BOOK JACKET** *Jewish Scholarship on the Resurrection of Jesus* David Mishkin, 2017-09-07 The Jewish study of Jesus has made enormous strides within the last two hundred years Virtually every aspect of the life of Jesus and related themes have been analyzed and discussed Jesus has been reclaimed as a fellow Jew by many although what this actually means remains a matter for discussion Ironically the one event in the life of Jesus that has received significantly less attention is the one that the New Testament proclaims as the most important of all his resurrection from the dead This book is the first attempt to document Jewish views of the resurrection of Jesus in history and modern scholarship **The Jewish Context of Jesus' Miracles** Eric Eve, 2002-08-27 Scholarly literature on Jesus has often attempted to relate his miracles to their Jewish context but that context has not been surveyed in its own right This volume fills that gap by examining both the ideas on miracle in Second Temple literature including Josephus Philo the Dead Sea Scrolls Apocrypha and Pseudepigrapha and the evidence for contemporary Jewish miracle workers The penultimate chapter explores insights from cultural anthropology to round out the picture obtained from the literary evidence and the study concludes that Jesus is distinctive as a miracle worker in his Jewish context while nevertheless fitting into it **Miracles** J. Harold Ellens, 2008-07-30 Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history We have all heard of what seem miraculous events which have surfaced across history They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead These books led by an eminent scholar who serves as series editor for the Praeger series Psychology Religion and Spirituality examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events aiming to bring hard science to some of the most persistent and peculiar phenomena associated with the human race Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history From news of a crippled woman who left her wheelchair and walked after an evangelist prayed over her to stories of people who died on the operating table only to be revived to tell of bright lights and the pathway to the afterlife we've all heard of what seem miraculous events They have surfaced across history They range from stigmata and bleeding icons to deadly tumors that disappear and

healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead Some miracles are intricately tied to religious beliefs but there are millions of people who ascribe to no particular religion yet still believe that things happen that defy all laws of nature and thus defy scientific explanation In these books eminent scholar J Harold Ellens and his team of expert contributors examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events as they aim to bring hard science to some of the most persistent and peculiar phenomena associated with the human race

The Book of Miracles Kenneth L. Woodward,2001-07-10 Woodward offers an intellectually rich look at the five great religions foundational miracles and those of the later sages and saints

Reader's Guide to Judaism Michael Terry,2013-12-02 The Reader s Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly

New Testament Miracle Stories in Ghanaian Mother-Tongues Abraham Boateng,2024-08-05 This book examines the translations of selected miracle stories from the Hebrew Bible Septuagint LXX and the Greek New Testament into selected Ghanaian mother tongues considering possible shifts of meaning that occur in translating 1Kings 18 25 38 Mark 9 14 29 and Luke 7 11 17 are used as case studies The author draws out semiotic hermeneutical nuances of these texts as they are understood in the Ghanaian context and addresses questions in the field of Biblical studies concerning the relevance of intercultural hermeneutics for current trends in Ghanaian Christianity Particularly important is the high premium placed on miracles in present day Ghanaian spirituality making a careful analysis of these stories particularly relevant for the Ghanaian audience The study also explores several factors that influence the translation process and have a bearing on the reception and use of the text It follows the growing calls for a shift in African Biblical hermeneutics from the theological heritage of Europe and America to the emerging theological trajectories of Africa This post colonial shift re examines the translated text moving from what the text might have meant to what the text might mean in Africa

Miracles in Jewish and Christian Antiquity John C. Cavadini,1999 The essays collection in this book are the product of the annual year long seminar on Christianity and Judaism in Antiquity held in the Department of Theology at the Univ of Notre Dame Each is a study of some aspect of the miraculous relevant to the Bible and associated literature or to rabbinic or patristic literature which together range in focus from theoretical issues of the miraculous to single passages from the literature of the miraculous with consideration of everything in between
