## Miss Blums Dilemma:

*Miss Blum's Dilemma* Patricia Laye,1994 A sensible lady finds herself in a scandalous dilemma when an impossibly improper lord sets out to conquer her heart Miss Victoria had stolen into Lord Hardwick s library to retrieve her cousin s bracelet only to find herself swept into the arms of the most notorious rake in London Regency Romance Environmental Effect of the Gasoline Tilt Rule United States. Congress. House. Committee on Interstate and Foreign Commerce.

Subcommittee on Oversight and Investigations,1979 **Hoarding New Guinea** Rainer F. Buschmann,2023-07 Hoarding New Guinea provides a new cultural history of colonialism that pays close attention to the millions of Indigenous artifacts that serve as witnesses to Europe s colonial past in ethnographic museums Rainer F Buschmann investigates the roughly two hundred thousand artifacts extracted from the colony of German New Guinea from 1870 to 1920 Reversing the typical trajectories that place ethnographic museums at the center of the analysis he concludes that museum interests in material culture alone cannot account for the large quantities of extracted artifacts Buschmann moves beyond the easy definition of artifacts as trophies of colonial defeat or religious conversion instead employing the term hoarding to describe the irrational amassing of Indigenous artifacts by European colonial residents Buschmann also highlights Indigenous material culture as a bargaining chip for its producers to engage with the imposed colonial regime In addition by centering an area of collection rather than an institution he opens new areas of investigation that include non professional ethnographic collectors and a sustained rather than superficial consideration of Indigenous peoples as producers behind the material culture Hoarding New Guinea answers the call for a more significant historical focus on colonial ethnographic collections in European museums *Advances in the Study of Behavior* ,1993-04-20 Advances in the Study of Behavior is the leading series in its field Each volume includes a variety of review essays by experts providing authoritative overviews of key areas of current interest that are invaluable to the teacher student and researcher in the field of behavior whether psychologist or biologist This volume continues the tradition of excellence in the study of behavior by covering a whole range of biological and psychological research Each of the chapters presents new ideas with a particularly interesting approach to sexual coercion The volume as a whole has a particular strength in the area of behavioral development which is the main topic of the last three chapters **Alternative Reproductive Tactics** Rui F. Oliveira,Michael Taborsky,H. Jane Brockmann,2008-03-13 The study of alternative reproductive tactics the behavioural strategies used by individuals to increase their reproductive success is an evolutionary puzzle and one of great interest to researchers For instance why do some males guard both nest and eggs while others sneak into nests while pairs are spawning and fertilise those eggs The field offers a special opportunity to study the evolution and functional causes of phenotypic variation which is a general problem in the field of evolutionary biology By integrating both mechanistic psychological and evolutionary behavioural ecology perspectives and by covering a great diversity of species Alternative Reproductive Tactics addresses this integrated topic of longstanding interest bringing
