Love's Redeeming Work Geoffrey Rowell, Kenneth Stevenson, Rowan Williams, 2003-10-23 There is a rich vein of writing within Anglican tradition that has helped to form the theology and spirituality of the contemporary church For many readers much of this material remains unfamiliar and is often difficult to access Love's Redeeming Work draws together the works of major writers from the sixteenth century to the present day who have contributed to this development Each selected writer is introduced with a brief biography which gives background information about the author and highlights the relationships that existed with others from the same period This will enable the reader to set the writings in their proper context enhancing understanding of the material The selections then follow In some instances these may be familiar but other examples will introduce fresh ideas for every reader Each writer's selection is concluded with a list of source texts which can encourage readers to explore in more depth those areas which intrigue and excite them Love's Redeeming Work traces a path that has enabled Anglicanism in particular and the wider church as well to develop an ever deepening awareness of the need for a spiritual depth in the Christian life informed by a better knowledge of tradition In exploring this material it is the compilers hope that readers will find new riches that will encourage and sustain their own quest for holiness **Thomas Merton and**
