Love Life Of Animals:

The love-life of animals; tr Wolfgang von Buddenbrock, The Love-Life of animals Wolfgang von Buddenbrock-Hettersdorff,1956 Living in the World Theodore Ihejieta,2018-06-21 Living in the World By Theodore Ihejieta Living in the World is a book of love and life called circle of positive energy and energy of sunlight The book is a book of Planet Earth because the living planet gave sunlight energy to the author of living in the world The author is a human being who did not like the way human beings were suffering in the world and thought that he needed to do something in order to improve the standard of living in the world Author Theodore Ihejieta was born into a Christian family who believed in God and trusted God to protect them from evil and death Death killed the author s father which made him stop trusting God Death killed the immediate junior brother of the author and made him declare war against God The author read many religious books and discovered that human beings did not know God because human beings did not have the intention to know God Ihejieta wants to know God and succeeds in knowing God because God showed Himself to him when he started questioning the integrity of God Living in the World is a healing book for human beings to absorb and chase death away because living in the world destroys the fear of God and the devil of God in human beings My Animals & Flowers Theodor Lessing,2025-12-25 An important translation that illustrates Lessing s parallels between animal and human society whilst applying them to wider social psychological and philosophical contexts The Existence Theodore Ihejieta,2018-12-21 The Existence By Theodore Ihejieta The Existence is a book of love and life that talks about the world as the existence of human beings and tells human beings to understand that the world is the love and the life It is a book of Planet Earth which the Planet Earth gave to the author because the author asked the Planet Earth for the book of the world The author is a human being who lost faith in God and called on Planet Earth to do work and save human beings from evil and death in the world This is a book of a human being who was challenged by evil and death in the world and the human being called on his existence for help and protection The author did not like to die in the world and told his existence that he did not want to die because the author believed that Planet Earth has the power to save human beings in the world The Existence is the faith the hope and the charity that God challenged human beings to find and tell the mountain of evil and death to move away from human beings The World of Animals Joseph Wood Krutch,1961 This collection of writings selected from a vast literature about animals contributes something to an over all picture of human beings relations with and attitudes toward the animal kingdom Lives of Game Animals Ernest Thompson Seton,1928 **The Play of Animals** Karl Groos,1898 *Animals* ,1906 Our Dumb Animals ,1909 **Our Duty to Animals.
