A Kingdom of Images Peter Fuhring,Louis Marchesano,Remi Mathis,Vanessa Selbach,2015-06-18 Once considered the  
golden age of French printmaking Louis XIV's reign saw Paris become a powerhouse of print production During this time the  
king aimed to make fine and decorative arts into signs of French taste and skill and by extension into markers of his  
imperialist glory Prints were ideal for achieving these goals reproducible and transportable they fueled the sophisticated  
propaganda machine circulating images of Louis as both a man of war and a man of culture This richly illustrated catalogue  
features more than one hundred prints from the Getty Research Institute and the Bibliothèque nationale de France in Paris  
whose print collection Louis XIV established in 1667 An esteemed international group of contributors investigates the ways  
that cultural policies affected printmaking explains what constitutes a print describes how one became a printmaker studies  
how prints were collected and considers their reception in the ensuing centuries A Kingdom of Images is published to
