**Criticism of the New Testament** George Salmon, 1897 Myths and Mistakes in New Testament Textual Criticism Elijah Hixson, Peter J. Gurry, 2019-11-05 A renewed interest in textual criticism has created an unfortunate proliferation of myths mistakes and misinformation about this technical area of biblical studies Elijah Hixson and Peter Gurry along with a team of New Testament textual critics offer up to date accurate information on the history and current state of the New Testament text that will serve apologists and offer a self corrective to evangelical excesses

### New Testament Textual Criticism and

### **Changing the Goalpost of New Testament Textual Criticism** Abidan Paul

Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or

many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice

**Chapters in Trhe History of New Testament Textual Criticism** Bruce Manning Metzger, **Studies in the Textual Criticism of the New Testament** Bart D. Ehrman,2006-05-01 For the first time in one volume this book presents

contributions to the textual criticism of the New Testament made over the past twenty years by Bart Ehrman one of the premier textual scholars in North America The collection includes fifteen previously published articles and six lectures delivered at Duke University and Yale University on a range of topics of central importance to the field Following a general essay that gives an introduction to the field for beginners are several essays dealing with text critical method especially pertaining to the classification of the Greek manuscript witnesses There then follow two articles on the history of the text several articles on important specific textual problems and three articles on the importance and use of patristic evidence for establishing the text and writing the history of its transmission The volume concludes with six lectures designed to show the importance not only of reconstructing an allegedly original text but also of recognizing how that text was changed by scribes of the early Christian centuries This book will be of vital interest to any scholar or advanced student of the New Testament and early Christianity It will make an ideal companion volume for Bart Ehrman s ground breaking study The Orthodox Corruption of Scripture The Effects of Early Christological Controversies on the Text of the New Testament Oxford 1993 and the volume he co edited with Michael Holmes The Text of the New Testament in Contemporary Research Essays on the Status Quaestionis Eerdmans 1995

**Studies in the Theory and Method of New Testament Textual Criticism** Eldon Jay Epp,Gordon D. Fee,1993 The seventeen studies in this volume provide a presentation and assessment of past and current methods applied to the New Testament text Coauthors Epp and Fee offer an introductory survey of the whole field of New Testament textual criticism followed by sections of essays on these topics definitions of key terms critiques of current theory and method methods of establishing textual relationships studies of the papyri with respect to text critical method and guidelines for the use of patristic evidence From publisher s description **The New Testament and Criticism** George Eldon Ladd,1967 One unfortunate consequence of the bitter fundamentalist modernist controversy which raged in the early twenties has been the strongly negative attitude toward Biblical criticism assumed by some of the successors to the fundamentalists of the 1920s Such people according to the author insist that the critical method is basically hostile to the

evangelical faith and they have continued to oppose any use of it Others however claiming the same heritage believe that the orthodox interpretation of the Gospel can be defended positively and constructively only with the aid of a sound critical method and the results of critical scholarship The author believes that an evangelical Biblical criticism is not only possible but necessary The central thesis of his book is that the Bible is the Word of God given in the words of men in history and as such its historical origins must be reconstructed as far as possible In this way a richer understanding of the Scriptures can be achieved
