Love Of Learningmark:

For the Love of Learning Kristin Phillips, 2022-08-16 An illuminating and refreshing memoir about a year in the life of an elementary school principal outlining the joys and challenges for teachers and students of education today Outside of home children spend more time at school than anywhere and teachers play an important role in their young lives Teachers inspire nudge support and help students through many difficulties both academic and developmental And yet we almost never hear about what s really happening in school Kristin Phillips taught grade school for years before becoming a principal helping to guide not just students but also staff through better learning Here she takes us through a school year from the excitement of fall through the long days of winter and into the renewed energy that comes with spring Through her eyes we experience the increasingly complex education system children with disruptive behaviours teachers attempting new practices some more successfully than others and even parents who need a little help parenting As she walks us through this year we re introduced to the many problems that she faced but also those of the students and teachers she worked with What s the best way to address bullying in the classroom and school yard What do you do with a five year old who won t stop cursing in class And importantly how do we ensure all students are learning And these are just the concerns Phillips faced during school hours At home she reckoned with her own family s problems Recently divorced Phillips shares the ups and many downs of parenting three teenagers one of whom at times suffers from debilitating mental health issues With the realities of Covid 19 the importance of schools and their vital role for children and all of society has never been clearer Phillips takes us into the classrooms hallways and principal s office revealing the innovations happening in our schools and also the areas where education can do better With honesty and compassion Phillips gives a human face to the very real challenges educators work to overcome one year and one student at a time
