New Magics:

A Worldbuilder's Guide to Magic Brent A. Stypczynski, 2021-10-25 Constructing a functional system of magic that helps readers suspend disbelief is a crucial part of worldbuilding in the fantasy genres. Yet creating a believable, compelling and original fictional universe can be daunting. To help inspire writers, this guide provides an overview of how magic has been understood in history and used in myth, legend and modern fiction. Different forms of magic are explored and a broad range of stories from Nordic myths to modern novels are described and referenced. Discussion explores how magic as a concept shapes and is shaped by fictional worlds and societies.

The Neon Court Kate Griffin, 2011-03-24 The fate of the city of London is at stake as sorcerers battle each other in a stylish, inventive urban fantasy. Publishers Weekly War is coming to London. A daimyo of the Neon Court is dead and all fingers point towards their ancient enemy, The Tribe. And when magicians go to war, everyone loses. But Matthew Swift has his own concerns. He has been summoned abruptly, body and soul, to a burning tower and to the dead body of Oda, warrior of The Order and known associate of Swift. There's a hole in her heart and the symbol of the Midnight Mayor drawn in her own blood. Except she is still walking and talking and has a nasty habit of saying we when she means I. Now Swift faces the longest night of his life. Lady Neon herself is coming to London and the Tribe is ready to fight. Strange things stalk this night: a rumored chosen one, a monster that burns out the eyes of its enemies and a walking dead woman. Swift must stop a war, protect his city and save his friend, if she'll stop trying to kill him long enough for him to try.

Handbook of Religion and the Authority of Science Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion, namely the widespread tendency of religions to appeal to science in support of their truth claims. Though the appeal to science is most evident in more recent religions like Christian Science and Scientology, no major faith tradition is exempt from this pattern. Members of almost every religion desire to see their truths supported by the authority of science, especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened. The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science. The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world.

Heroes of Havensong: The Last Ice Phoenix Megan Reyes, 2024-08-13 Follow the threads of the Fates into the captivating sequel in the timeless fantasy series about four unlikely heroes bound together to save their world and magic itself. Blue, River, Shenli and Wren are still reeling from the discovery that they are the four heroes foretold to save their world. The weight of their destiny and the expectations that come with it is a heavy burden, but when danger once again finds them and the people they love, there's no choice but to act. Shenli and Wren both remain outsiders, one as a prisoner tired of being a pawn and the other banished from the home she fought to save. Meanwhile, Blue and River face a quest for a mythical creature that will take them beyond the world they know.

with the fate of the Meraki people hanging in the balance Although they just found one another the four heroes are once again scattered across Haven all facing new journeys impossible choices and shocking truths As their world prepares for war will they be able to unravel what the Fates have in store for them and find their own path A powerful cast of characters in an epic tale of dragons and magic Lisa McMann New York Times bestselling author of The Unwanteds *The art of modern conjuring, magic, and illusions* Henri Garenne,1886 **Magazine of Magic** ,1915 **The Magic Staff** Andrew Jackson Davis,1870 **More magic, by prof.
