## Gender and Ethnicity

Gender and ethnic identity affect our political identities. Men are more likely to vote Republican than women. Black voters are more likely than white voters to cast ballots for Democrats.

## Peer Groups

As we age, our friends and our coworkers begin to influence our political views. So do the groups we join, such as labor unions and political parties.

## News Media

The news media influence what we pay attention to as adults. The effects of the media vary with our reading and viewing habits.

## Family

Families play a large role in our early socialization. Most high school seniors identify with the same political party as their parents.

## Religion

Religious teachings help shape political values. People may have more conservative or more liberal views based on their religious beliefs.

## Education

Education teaches us to love our country, respect the law, and value our rights. The more education Americans get, the more likely they are to participate in politics.

**New Directions in Political Socialization** Sandra Kenyon Schwartz,1975      *New Directions in Political Psychology*  
Michael X. Delli Carpini, Leonie Huddy, Robert Y. Shapiro, 1994      **New Directions in Political Communication** David L. Swanson, Dan Nimmo, 1990 Political communication has witnessed unprecedented growth and change over the past decade. This volume explores the state of the art in political communication research and highlights some of the most promising directions for future research that are emerging in current work. *New Directions in Political Communication* argues that it is time for political communication research to look beyond the traditional voter persuasion paradigm that has dominated the field and reach out to other contexts and viewpoints. The volume offers analyses of the broad foundations of political communication examples of a broadened understanding of what kinds of messages should be viewed as political an institutional perspective brought      Political Initiation in the Novels of Philip Roth Claudia Franziska Bruhwiler, 2013-04-25  
Political Initiation in the Novels of Philip Roth exemplifies how literature and specifically the work of Philip Roth can help readers understand the ways in which individuals develop their political identity learn to comprehend political ideas and define their role in society. Combining political science literary theory and anthropology the book describes an individual's political coming of age as a political initiation story which is crafted as much by the individual himself as by the circumstances influencing him such as political events or the political attitude of the parents. Philip Roth's characters constantly re-write their own stories and experiment with their identities. Accordingly Philip Roth's works enable the reader to explore for instance how individuals construct their identity against the backdrop of political transformations or contested territories and thereby become initiands or fail to do so. Contrary to what one might expect initiations are not only defining moments in childhood and early adulthood instead Roth shows how initiation processes recur throughout an individual's life.
