*New Essays on Moby-Dick* Richard H. Brodhead, 1986-11-28 An introductory critical guide with five specialised essays analysing Melville's classic Moby Dick     **New essays on "Moby-Dick"** , 1986     **New Essays on Moby-Dick** , 2000

**New essays on Moby-Dick** ANON., 1991     The Critical Response to Herman Melville's Moby-Dick Kevin J. Hayes, 1994-09-29 Herman Melville's Moby Dick received considerable attention shortly after its publication in 1851 Melville's contemporaries reacted strongly to his work and his innovations often received harsh criticism from his 19th century audience Interest in Melville's novel then subsided until a revival began at the beginning of the 20th century This volume collects the most significant writings on Moby Dick to trace the critical response to the novel from the 19th century to now The introduction explores the reasons underlying the canonization of Moby Dick and provides challenging new information about the Melville revival of the early 20th century The sections that follow provide selections of criticism from Melville's contemporaries the revival of the early 20th century and academic criticism of the present day The volume includes the most important critical essays on Moby Dick along with reviews by Melville's contemporaries articles never before reprinted details gleaned from the correspondence of those who read and publicly commented on Moby Dick and an original new essay

Prospects for the Study of American Literature Richard Kopley, 1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain     **Masterpieces of American Romantic Literature** Melissa McFarland Pennell, 2006-06-30 The Romantic movement led to some of the greatest works of 19th century American literature Written expressly for students this book offers succinct introductions to 10 of the most important works of American Romanticism many of which reflect the social political and historical concerns of the era Included are chapters on Emerson's essays Poe's The Raven and selected stories Hawthorne's The Scarlet Letter Stowe's Uncle Tom's Cabin and several other major texts or collections Each chapter provides biographical information a review of the author's critical reception and a discussion of characters plot themes language and other topics The volume closes with a bibliography of primary and secondary sources Romanticism significantly influenced American literature in the 19th century and led to what has sometimes been called the American Renaissance The Romantic movement and the period roughly contemporaneous with the Civil War gave birth to some of the most creative and enduring poems novels short fiction and

essays These works are among the most imaginative and challenging pieces of American literature and hold a central place in the curriculum In addition to their value as literary works they chronicle the enormous social political and historical changes taking place in America Written expressly for high school students this book conveniently introduces the major works of American Romanticism The Historical and Political Turn in Literary Studies Winfried Fluck,1995 **Herman Melville** Nick Selby,1998 Nick Selby offers a view of the critical debate about Melville s Moby Dick The text begins with Melville s own letters and essays and the early reviews followed by the Melville revival of the 1920s the novel s central place in American Studies in the 1940s and 50s and the postmodern New Americanist readings of the 1980s *Blood* Gil Anidjar,2014-05-06 Blood in Gil Anidjar s argument maps the singular history of Christianity A category for historical analysis blood can be seen through its literal and metaphorical uses as determining sometimes even defining Western culture politics and social practices and their wide ranging incarnations in nationalism capitalism and law Engaging with a variety of sources Anidjar explores the presence and the absence the making and unmaking of blood in philosophy and medicine law and literature and economic and political thought from ancient Greece to medieval Spain from the Bible to Shakespeare and Melville The prevalence of blood in the social juridical and political organization of the modern West signals that we do not live in a secular age into which religion could return Flowing across multiple boundaries infusing them with violent precepts that we must address blood undoes the presumed oppositions between religion and politics economy and theology and kinship and race It demonstrates that what we think of as modern is in fact imbued with Christianity Christianity Blood fiercely argues must be reconsidered beyond the boundaries of religion alone *Manhood and the American Renaissance* David Leverenz,1989 Masculinity and gender roles in Hawthorne Emerson Melville et al Note Walt Whitman pp 30 34

*Making Nature Sacred* John Gatta,2004-10-14 Since colonial times the sense of encountering an unseen transcendental Presence within the natural world has been a characteristic motif in American literature and culture American writers have repeatedly perceived in nature something beyond itself and beyond themselves In this book John Gatta argues that the religious import of American environmental literature has yet to be fully recognized or understood Whatever their theology American writers have perennially construed the nonhuman world to be a source in Rachel Carson s words of something that takes us out of ourselves Making Nature Sacred explores how the quest for natural revelation has been pursued through successive phases of American literary and intellectual history And it shows how the imaginative challenge of reading landscapes has been influenced by biblical hermeneutics Though focused on adaptations of Judeo Christian religious traditions it also samples Native American African American and Buddhist forms of ecospirituality It begins with Colonial New England writers such as Anne Bradstreet and Jonathan Edwards re examines pivotal figures such as Henry Thoreau and John Muir and takes account of writings by Mary Austin Rachel Carson and many others along the way The book concludes with an assessment of the spiritual renaissance underway in current environmental writing as represented by five noteworthy

poets and by authors such as Wendell Berry Annie Dillard Marilynne Robinson Peter Matthiessen and Barry Lopez This engaging study should appeal not only to students of literature but also to those interested in ethics and environmental studies religious studies and American cultural history *Sober Cannibals, Drunken Christians* Jamie Lorentzen, 2010 Presents a collection of remembrances from colleagues students and fellow writers and poets in America and Poland of Czesław Miłosz Miłosz's oeuvre is complex rooted in twentieth century eastern European history A poet translator and prose writer Miłosz was a professor at the University of California Berkeley from 1961 to 1998 In 1980 he was awarded the Nobel Prize in Literature **Herman Melville, Romantic and Prophet** Christopher S. Durr, 1996 Herman Melville Wyn Kelley, 2008-01-29 Arranged chronologically this volume explores Herman Melville's distinctive narrative style on some of his novels short fiction and poems Book cover **Herman Melville** Marvin Fisher, 1988 *The Old Testament in Fiction and Film* Larry Joseph Kreitzer, 1994 *Anthologie de la littérature américaine* Daniel Royot, 1998 De la période coloniale nos jours une anthologie qui répond pour l'essentiel une volonté pédagogique et est le fruit d'une recherche collective quatre universitaires trois Français un Américain Tableaux chronologiques comparatifs notes d'élucidation introductions et références multiples Les textes choisis de bonne longueur n'ont pas été traduits SDM **The British National Bibliography** Arthur James Wells, 2002 **E Pluribus Unum** W. C. Harris, 2005-06-15 Out of many one But how do the many become one without sacrificing difference or autonomy The premise of this book is that American writers of the time came to view the resolution of this central philosophical problem as no longer the exclusive province of legislative or judicial documents but capable of being addressed by literary texts as well
