New Key Geography For Gcse:

New Key Geography for GCSE David Waugh, Tony Bushell, 2002 Now available as a single textbook Key Geography for GCSE has been completely revised and updated to meet all the requirements of the 2002 GCSE Geography specifications The core content from the previous editions has been combined in one textbook Suitable for all the GCSE specifications from each awarding body this edition builds on the popular approach of the revised Key Stage 3 Key Geography series The revised Teacher Resource Guide has been completely rewritten providing generic resources to support the core textbook An Accompanying CD ROM contains all the teacher resources in a downloadable format and editable schemes of work linking the text to each of the GCSE specifications and Standard Grade

New Key Geography for GCSE David Waugh, Tony Bushell, John Smith, David Gardner, David Cookson, 2002 NOT AVAILABLE SEPARATELY

New Key Geography for GCSE Second Edition David Waugh, Tony Bushell, 2007 Suitable for all awarding bodies this title provides extensive case study material and a dedicated section on map graph and photo skills

New Key Geography for GCSE John Smith, David Gardner, 2002 Part of a geography course which has been specially written for the National Curriculum and is based on the statutory requirements this teacher's resource guide accompanies a pupil's books which aims to provide full coverage of all topics issues and skills for GCSE The course caters for a wide ability range with extra help for average and lower ability pupils The material is presented through thematic topics which include specific case studies and area studies and environmental issues are integrated throughout

Scottish Edition David Waugh, Tony Bushell, Chris Peyton, Alasdair McLelland, 2000 Fully compliant with the new Scottish Curriculum Teachers can rely on the accurate content of the text developed by practising Scottish Geography teachers Case studies of selected countries including the brand new Scotland section can be used at S1 and S2 study Dedicated website with support materials relevant links and activities

New Basics Tony Bushell, 2004 Well chosen photocopiable materials save time in lesson preparation Less able pupils can spend more time on the real geographical element of the lesson Students can compile a folder of work with the worksheets enabling them to monitor their own progress Encouraging and spacious layout increases confidence of less able learners Pupil friendly design encourages concentration and the attainment of measurable outcomes

New Extensions David Waugh, David Gardner, 2004 Extension materials stretch and challenge higher ability pupils whilst encouraging a more in depth study of themes and places New Extensions fits easily into existing schemes of work and enables pupils to achieve the Higher National Curriculum levels of attainment

Global Perspectives in the Geography Curriculum Alex Standish, 2008-10-07 For geographers across the globe this book provides the arguments for a return to the teaching of geography and why they should reject the politicisation of the subject by education policy makers and politicians Standish's careful critique shows the necessity of a depoliticised geography curriculum the irony of which would be that it would ensure that every child could point to Iraq Iran and Afghanistan on a map Prof Dennis Hayes Oxford Brookes University UK A prescient and critical

analysis of the changing face of geography teaching This book deserves to be widely read and debated Alex Standish's book puts current trends in geography teaching in historical and critical context It comprises a forthright and timely defence of geographical education for its own sake Dr Jim Butcher FRSA Department of Sport Science Tourism and Leisure Canterbury Christ Church University Since the early 1990s educational policy makers and some subject leaders have been seeking to fundamentally change the teaching of geography in UK and US schools from a subject which encourages students to explore spatial concepts ideas and skills to a more ethics based subject concerned with the promotion of environmentalism cultural diversity and social justice In this book the new approach is critically examined within a historical and ideological context addressing a number of fundamental questions Should geography be used as a tool for the delivery of citizenship ideals How does this affect the intellectual and moral value of geographical education for young people If the state and teachers are taking more responsibility for the values attitudes and emotional responses of students how will they learn to develop these qualities for themselves If global perspectives shift the focus of education from learning about the outside world to learning about the self what is its vision of social progress and conception of social change This book advocates a return to liberal models of education arguing that the new approach to geography currently being promoted for schools fundamentally undermines the educational value of the subject and the freedom of young people to shape the world in which they live A vital resource for teachers and student teachers alike **Global Perspectives in the Geography Curriculum** makes a significant contribution to the growing debate about the future direction of the discipline itself **Thinking and Learning Skills**

Grant Westoby, 2004 A series of photocopiable activity files that provide opportunities to help develop active learning and critical thinking skills **Key Geography for GCSE** David Waugh, 1994 Part of a geography course specially written for the National Curriculum and based on the statutory requirements this is one of two pupil's books which aim to provide full coverage of all topics issues and skills for GCSE Corresponding teacher's resource guides are also available **Effective**
