New Developments in Applied Superconductivity Y. Murakami,1989 **New Developments In Applied Superconductivity - Proceedings Of The International Symposium** Yukitaka Murakami,1989-06-01 This symposium focused on new superconductors electronics magnet technology energy and new applications Recent discoveries in HTc with transition temperatures over 90 K have spawned a search for practical new applications These applications extend from current uses such as that of the medical MRI to future applications represented by research on new high temperature materials They span from microcircuit applications to the proposed SMES and fusion reactor applications
