## Paramodern Architecture Shuhei Endo:

**Shuhei Endo** Hiroyuki Suzuki,2006-10-15 A detailed survey on the Japanese avant garde architect [Endo Shuhei](#)  
Shuhei Endo,2021 **Endo Shuhei - Paramodern Architecture** ,2015 [Shuhei Endo](#) Hiroyuki Suzuki,Frédéric  
Migayrou,2013 **Japan** Masaaki Takahashi,2007 Insightful look at the many young interior designers and architects  
creating an impression in Japan today **Dwell** ,2003-10 At Dwell we're staging a minor revolution We think that it's  
possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well  
designed and still be a regular human being We think that good design is an integral part of real life And that real life has  
been conspicuous by its absence in most design and architecture magazines **Corrugated Iron** Adam Mornement,Simon  
Holloway,2007-12-25 Corrugated Iron Building on the Frontier **The City as Target** Ryan Bishop,Gregory Clancey,John  
W. Phillips,2012-03-29 Bringing together scholars from a diverse range of disciplines The City as Target provides a sustained  
and critical response to the relationship between the concept of targeting in its many forms and notions of understanding  
imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the  
word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more  
than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of  
violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful  
underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the  
contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and  
historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight  
both the power of The Global City and the current vulnerability and fragility of urban culture exploring the city as a recipient  
and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets  
and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature  
this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies

work of more than one thousand architectural firms of different business models from Europe North America and the Asia  
Pacific in a broad sample of emerging markets Mainland China South East Asia India the Persian Gulf Sub Saharan Africa  
Russia and Kazakhstan and Latin America In the book different thematic geographies are presented to explore the global  
scope of the contemporary profession examine significant projects and the structural conditions behind them and reveal the  
debates that such works generated Understanding the global agency of design firms in emerging markets also becomes a

way to study different market conditions modes of production and architectural trends comparatively and to highlight the shifts that occurred in the profession over the last few decades The use of quantitative methodologies produces a novel and updated narrative on contemporary architecture in emerging markets grounded in quantitative data rather than in preassumptions and purely qualitative interpretations Richly illustrated this book is further enhanced by an ample set of maps graphs and tables to visualise data better *Compact Houses* Cristina del Valle,2005 This volume showcases 55 architect designed compact houses including beach cottages mountain houses ski chalets and vacation homes Each project profiled includes a case history describing the design challenges the architect faced and how these were overcome
