Parenting with Heart Stephen James, Chip Dodd, 2018-10-16 Parents want to be the best person they can for their children but much of the time they may feel like giraffes on ice: clumsy, unprepared, and in imminent danger of going down. The good news is our children don't need perfect parents. They need authentic, fully hearted, relationally engaged parents who can mess up and move on more than parents who always get it right. In this freeing book, respected therapists and bestselling authors Stephen James and Chip Dodd invite parents to let go of perfectionism and micromanaging as they learn to parent from a place of emotional honesty and intimacy. Through their clinical experience and relatable true stories, they show parents that raising children to become capable, loving, and wise hearted adults is far more about accepting our flaws than projecting an impossible standard to our children that we already know we can't live up to. Parents will learn how to resolve issues from their own childhoods, tune into their feelings and the emotions of their children, and be present with their families through both the best and worst of circumstances.

Parenting with Heart Kathy Marshall Emerson, 2020-10-07 Parenting with Heart is a simple guide to doing our best as parents. The message is not magical but every parent and every child, regardless of age, can experience ordinary magic in their shared lives. What all children and youth need most is parenting with heart. Despite what we may think, every parent and every child is born with the capacity for happiness and well-being. Parenting with Heart points to the path for finding your own happiness and relating well to your child. Kathy Marshall Emerson, director of the National Resilience Resource Center, had difficulty finding really effective, practical, brief parenting resources to uncover this path. The professionals in schools and communities she worked with were at a loss to increase parent involvement. Parents were distressed by conflicts with their children. She set about creating Parenting with Heart to individually support parents who are looking for answers in their own families. The booklet is intentionally brief, colorful with photos, and designed for a diverse readership. It does not require long hours of reading. There are just five short chapters, each just two or three pages long. They explore finding hope, parenting with hope, understanding your own thinking, and personal resilience, listening beyond words, navigating moods, and

It's amazing, heartwarming, and completely user friendly. Just add your heart. Christiane Northrup MD, author of *Mother Daughter Wisdom*, *The Wisdom of Menopause*, and *Women's Bodies Women's Wisdom*. *Attached at the Heart* offers readers practical parenting advice for the modern age. In its most basic form, attachment parenting is instinctive. A crying baby is comforted and kept close to parents for protection. If hungry, he or she is breastfed. And while it is understood that there is no such thing as perfect parenting, research suggests that there is a strong correlation between a heightened sense of respect, empathy, and affection in those children raised the attachment parenting way. In this controversial book, readers will gain much-needed insight into childrearing while learning to trust the intuitive knowledge of their child, ultimately building a strong foundation that will strengthen the parent-child bond. Using the Eight Principles of Parenting, readers will learn How to prepare for baby before birth, Why breastfeeding is a must for busy moms, When to start feeding solid food, How to respond to temper tantrums, Sleeping safety guidelines, and the benefits of cosleeping. Tips for short separation, How to practice positive discipline and its rewards, Tips for finding and maintaining balance, The benefits of using a baby sling and implementing infant massage, Tips on dealing with criticism from those opposed or unfamiliar with AP style, The dangers surrounding traditional discipline styles of parenting. Contrary to popular belief, attachment parenting has been practiced in one form or another since recorded history. Over the years, it had been slowly replaced by a more detached parenting style, a style that is now believed by experts to be a lead contributing factor to suicide, depression, and violence. The concept of attachment parenting, a term originally coined by parenting experts William and Martha Sears, has increasingly been validated by research in many fields of study, such as child development, psychology, and neuroscience. Also known as conscious parenting, natural parenting, compassionate parenting, or empathic parenting, its goal is to stimulate optimal child development. While many attachment parenting recommendations likely counter popular societal beliefs, authors Barbara Nicholson and Lysa Parker are quick to point out that the benefits outweigh the backlash of criticism that advocates of detached parenting may impose. Contending for the Heart Jim Ertel, 2010-06-01. As you read the true stories in this book about raising children, you will discover that controlling behavior is never the real issue.
